

SUPPLEMENTARY INFORMATION: The offering of crude oil in the IFB is a continuation of the first of MMS's three planned RIK pilots. The other two RIK pilots are in the Gulf of Mexico. The State's objective in this pilot and MMS's objective in all its pilots is to identify the circumstances in which taking oil and gas royalties as a share of production (RIK) is a viable alternative to the agencies' usual practice of collecting oil and gas royalties as a share of the value received by the lessee for sale of the production. The Wyoming pilot is a joint project with the State of Wyoming expected to last 2 to 3 years.

The sale will involve approximately 3,250 bpd of crude oil from 66 Federal and State properties located in Wyoming's Bighorn and Powder River Basins. RIK oil from these Federal properties was previously offered under IFB No. 3984 for delivery to purchasers for production months April through September 1999. The main difference from the last sale is that only pipeline connected properties are being offered in this IFB.

Purchasers may bid on specific pipeline subgroups and/or on the entire packages of Wyoming sweet crude oil (1,020 bpd), Wyoming general sour crude oil (526 bpd), or Wyoming asphaltic sour crude oil (1,704 bpd). Bids will be due as specified in the IFB on or about August 9, 1999; successful bidders will be notified on or about August 16, 1999.

The following are some of the additional details regarding the offerings that will be posted in the IFB on or about July 19, 1999.

- List of specific properties;
- For each property—tract allocations, royalty rate(s), average daily royalty volume, quality, current transporter, and operator;
- Bid basis;
- Reporting requirements;
- Terms and conditions; and
- Contract format.

The internet posting and availability of the IFB in hard copy are being announced in oil and gas trade journals as well as in this **Federal Register** notice.

Cobre Mining Company, Hanover, New Mexico; Notice of Affirmative Determination Regarding Application for Reconsideration

By letter of July 2, 1999, petitioners requested administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, petition number TA-W-36,063, for workers of the subject firm. After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.
