Background

On August 19, 1993, the Department published in the **Federal Register** (58 FR 44162) the antidumping duty orders on certain corrosion-resistant carbon steel flat products and certain cut-to-length carbon steel plate from Canada. Based on timely requests by petitioners and respondents in both proceedings, the Department published its initiation of these antidumping duty administrative reviews covering the period of August 1, 1997 through July 31, 1998 (63 FR 51893) on September 29, 1998.

Extension of Time Limits for Preliminary Results

Because of the complexities enumerated in the Memorandum from Joseph A. Spetrini to Robert S. LaRussa, Extension of Time Limit for the Preliminary Results of Antidumping Administrative Reviews: Certain Corrosion-Resistant Carbon Steel Flat Products and Certain Cut-to-Length Carbon Steel Plate From Canada, dated

August 6, 1999, it is not practicable to complete these reviews within the time limits mandated by section 751(a)(3)(A) of the Act.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limits for the preliminary results 10 days to August 16, 1999. The final results continue to be due 120 days after the publication of the preliminary results.

Dated: August 6, 1999.
