

industries. The system was constructed on a production-oriented, or supply-based, conceptual framework.

Effective with the 1999 survey, the Census Bureau proposes to change the SAS survey questionnaires to reflect the many changes brought about by NAICS. We are expanding the number of form types and are developing these forms to be more tailored to the industries they survey. The goal is to maximize industry coverage within our available resources.

The revision to the SAS will increase industry coverage. Previously, a single summary report was produced for each of the three surveys. We will now produce multiple data products and reports by various sectors.

The SAS will produce estimates of total receipts for all industries covered and source of receipts and other expanded data items for the following sectors:

- Trucking (484).
 - Information (51).
 - Selected industries in Finance and Insurance (52).
 - Computer Systems Design and Related Services Industry (5415).
 - Health and Social Assistance Sector (62) except subsector 624 (Social Assistance).
- The SAS will provide dollar volume estimates for specific industries in the following NAICS sectors:
- Transportation and Warehousing (48-49).
 - Information (51).
 - Finance and Insurance (52).
 - Real Estate and Rental and Leasing (53).
 - Professional Scientific and Technical Services (54).
 - Administrative and Support, Waste Management and Remediation Services (56).
 - Educational Services (61).
 - Health and Social Assistance (62).
 - Arts, Entertainment and Recreation (71).
 - Other Services (81).

The Census Bureau need report only from a limited sample of service sector firms in the United States. The probability of a firm's selection is based on its revenue size (estimated from payroll). We will mail report forms to the firms covered by this survey and require their submission within thirty days after receipt.

Preliminary information and recommendations received by the Census Bureau indicate that the data have significant application to the informational needs of government agencies, the public, and the service, transportation, information, finance, and other service industries. The data

are not publicly available from nongovernmental or other governmental sources on a timely and continuing basis.

This survey will be submitted to the Office of Management and Budget for approval in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13. Copies of the proposed forms are available upon request to the Director of the Census Bureau (see ADDRESSES section).

Dated: August 27, 1999.

Kenneth Prewitt,

Director, Bureau of the Census.

DEPARTMENT OF COMMERCE

International Trade Administration

North American Free-Trade Agreement, Article 1904; NAFTA Panel Reviews; Notice of Completion of Panel Review

AGENCY: NAFTA Secretariat, United States Section, International Trade Administration, Department of Commerce.

ACTION: Notice of Completion of Panel Review of the final remand determination made by the U.S. International Trade Administration, in the matter of Porcelain-on-Steel Cookware from Mexico, Secretariat File No. USA-97-1904-07.

SUMMARY: Pursuant to the Order of the Binational Panel dated July 9, 1999, affirming the final remand described above was completed on July 20, 1999.

FOR FURTHER INFORMATION CONTACT: Caratina L. Alston, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 482-5438.

SUPPLEMENTARY INFORMATION: On July 9, 1999, the Binational Panel issued an order which affirmed the final remand determination of the United States International Trade Administration ("ITA") concerning Porcelain-on-Steel Cookware from Mexico. The Secretariat was instructed to issue a Notice of Completion of Panel Review on the 31st day following the issuance of the Notice of Final Panel Action, if no request for an Extraordinary Challenge was filed. No such request was filed. Therefore, on the basis of the Panel Order and Rule 80 of the *Article 1904 Panel Rules*, the Panel Review was completed and the panelists discharged from their duties effective August 20, 1999.

Dated: September 20, 1999.

Caratina L. Alston,

United States Secretary, NAFTA Secretariat.

BILLING CODE 3510-GT-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 083199B]

Fisheries Off West Coast States and in the Western Pacific; Availability of a Limited Access Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Availability of a limited access permit.

SUMMARY: The Acting Regional Administrator (Regional Administrator), Southwest Region, notifies all potential applicants that one permit is available for the Ho'omalulu Zone limited access bottomfish fishery in the Northwestern Hawaiian Islands (NWHI). Applications are being accepted and NMFS will issue a Ho'omalulu permit to a qualifying vessel owner in accordance with the Fishery Management Plan for Bottomfish and Seamount Groundfish Fisheries of the Western Pacific Region (FMP).

DATES: Applications must be filed no later than November 8, 1999.

ADDRESSES: Applications may be obtained from, and completed applications must be sent to, the Pacific Islands Area Office, Southwest Region, NMFS, 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI 96814.

FOR FURTHER INFORMATION CONTACT: Alvin Katekaru, NMFS, (808) 973-2935 ext 207.

SUPPLEMENTARY INFORMATION: At the Western Pacific Fishery Management Council (Council) meeting held on July 15 - 18, 1999, the Administrator of the Pacific Islands Area Office, NMFS, (PIAO Administrator) informed the Council that a Ho'omalulu Zone permit holder was determined to be ineligible for permit renewal during calendar year 1999. The permit was lost under the Ho'omalulu Zone's limited access program "use it or lose it" requirement when the permit holder's vessel failed to make the minimum number of annual bottomfish landings to be eligible for permit renewal. The Regional Administrator, in consultation with the Council, has determined that the Ho'omalulu Zone fishery can still support seven bottomfishing vessels at this time.
