Acid Rain NO_x Emission Reduction Program—Permit Modification for Alternative Emission Limitation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of draft permit modification adopting alternative emission limitation.

SUMMARY: Under Title IV of the Clean Air Act, EPA established the Acid Rain NO_x Emission Reduction Program to reduce the adverse effects of acidic deposition. The permit modification adds to a permit an Alternative Emission Limitation for NO_x emissions for a Phase I unit in accordance with the Acid Rain Program regulations. The Alternative Emission Limitation is less stringent than the standard limit for this type of unit but is the minimum rate that the unit can achieve during long-term dispatch operation.

EPA will consider all timely comments, except those pertaining to standard provisions under 40 CFR 72.9 or issues not relevant to the draft permit modification. The unit involved, J.H. Campbell, Unit 1, is in Ottawa County, Michigan and will be required to meet an annual average emissions limit for NO_x of 0.49 lb/mmBtu, instead of the otherwise applicable standard limit of 0.45 lb/mmBtu. Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Individuals or households; Not-for-profit institutions; Federal Government; and State, Local, or Tribal Government.

Number of Respondents: 516,000.

Structure owners receive an Antenna Structure Registration Number, which is a unique number that identifies an antenna structure. Once obtained, this

number must be used on all filings related to the antenna structure. The Commission requires this Registration Number to be submitted with any of the applications for licensing. This clearance is required in order to allow time for the Commission to update its application forms to include collection of Antenna Structure Registration Number. While we have accomplished this task, we continue to accept older version so the forms with the registration number as an attachment, merely as a customer convenience until radio services are fully implemented in ULS.
