National Environmental Justice Advisory Council; Notification of Meeting and Public Comment Period(s); Open Meetings

Pursuant to the Federal Advisory Committee Act (FACA), Public Law 92-463, we now give notice that the National Environmental Justice Advisory Council (NEJAC), along with

the various subcommittees will meet on the dates and times described below. All times noted are Eastern Standard Time. All meetings are open to the public. Due to limited space, seating at the NEJAC meeting will be on a first-come basis. Documents that are the subject of NEJAC reviews are normally available from the originating EPA office and are *not* available from the NEJAC. The NEJAC and subcommittee meetings will take place at the Crystal City Hilton at National Airport, 2399 Jefferson Davis Highway, Arlington, Virginia 22202. The meeting dates are as follows: November 30, 1999 through December 2, 1999. This is the first in a series of focused policy issue meetings for the NEJAC. To help prepare for this specific focused policy issue meeting the following background information is provided:

Request

The Charter for the National Environmental Justice Advisory Council (NEJAC) states that NEJAC shall provide independent advice to the Administrator on areas relating to environmental justice that may include, among other things, "EPA's framework for integrating socioeconomic planning, annual planning and management accountability for achieving environmental justice results agencywide." In order to provide such independent advice, the Agency, through the Office of Environmental Justice (OEJ), requests that the NEJAC convene a focused and issue-oriented public meeting in Washington, D.C. to receive comments, discuss, and analyze a major public policy issue. The Agency, furthermore, requests that the NEJAC produce a comprehensive report on the differing views, interests, concerns, and perspectives expressed by the stakeholder participants on the issue, and provide advice and recommendations for the Agency's review and consideration.

Issue

In order to secure protection from environmental degradation for all citizens, what factors should be considered by a federal permitting authority, as well as state or local agencies with delegated permitting responsibilities, in the decision-making process prior to allowing a new pollution-generating facility to operate in a minority and/or low-income community that may already have a number of such facilities?

Background

Federal statutes, many of which are implemented by state and local

permitting authorities, have established criteria for, or methods of, administering their permit programs. Typically, these permit programs have not taken into consideration the composition of the community affected by a proposed pollution-generating facility. Moreover, these permit programs frequently do not list as issues to be considered by regulators such factors as quality-of-life, aesthetic, historic, cultural, economic, or social impacts or issues such as the adequacy of meaningful public participation. Although permitting programs are required to consider ecological and health impacts, the evaluations tend not to be oriented towards the issues confronting minority and/or low-income communities.

Discussion

Staff in the EPA Office of General Counsel (OGC) has conducted a preliminary analysis of the Agency's permitting statutes and regulations that suggests there are opportunities for addressing environmental justice situations. (Memorandum dated June 25, 1996) Professor Richard Lazarus, as a member of the NEJAC's Enforcement Subcommittee, authored at the request of NEJAC a subsequent memorandum which further explored the implications of OGC's initial analysis. (Memorandum dated July 18, 1996) The NEJAC adopted at its December 10-12, 1996, meeting a resolution requesting the EPA to undertake a comprehensive survey of its existing statutory and regulatory authority to promote environmental justice under existing statutory authorities. These memoranda identified opportunities under seven statutes and their implementing regulations, *i.e.*, CAA, CWA, CERCLA, RCRA, EPCRA, TSCA, and FIFRA. To address instances of environmental injustice through the implementation of the existing statutes and regulations, the EPA may, in some cases, need to issue regulations: in other instances, the EPA may have to issue appropriate guidance.

Meeting

Registration for the NEJAC meeting will begin on Tuesday, November 30, 1999 at 8:00 a.m. A focused "policy issue" public comment period has been scheduled for Tuesday, November 30, 1999 from 6:00 p.m. to 9:00 p.m. On Wednesday, December 1, 1999, an "all other EJ issues" public comment period has been scheduled from 6:00 p.m. to 9:00 p.m. The full NEJAC will convene Tuesday, November 30, 1999, from 8:00 a.m. to 9:00 p.m., and on Wednesday, December 1, 1999, from 8:00 a.m. to 5:00 p.m. Business will include a series of panels with expert testimony on the

focused policy issue, a review of ongoing NEJAC activities and a discussion of new business items. All subcommittees of the NEJAC, will meet on Wednesday, December 1, 1999, from 8:00 a.m. to 4:30 p.m. Any member of the public wishing additional information on the subcommittee meetings should contact the specific Designated Federal Official at the telephone number listed below.
