## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR part 62—"Criteria and Procedures for Emergency Access to Non-federal and Regional Low-level Waste Disposal Facilities."

2. *Current OMB approval number:* 3150-0143.

3. *How often the collection is required:* Requests are made only when access to a non-Federal low-level waste disposal facility is denied, which results in a threat to public health and safety and/or common defense and security.

4. *Who is required or asked to report:* Generators of low-level waste who are denied access to a non-Federal low-level waste facility.

5. *The number of annual respondents:* No requests for emergency access have been received to date. It is estimated that up to one request would be made every three years.

6. *The number of hours needed annually to complete the requirement or request:* It is estimated that 680 hours would be required to prepare the request, or approximately 227 hours per year.

7. *Abstract:* Part 62 sets out the information which will have to be provided to the NRC by any low-level waste generator seeking emergency access to an operating low-level waste disposal facility. The information is required to allow NRC to determine if denial of disposal constitutes a serious and immediate threat to public health and safety or common defense and security.

Submit, by January 7, 2000, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street NW (lower level), Washington, DC. OMB clearance requests are available at the NRC worldwide web site (<http://www.nrc.gov/NRC/PUBLIC/OMB/index.html>). ## NUCLEAR REGULATORY COMMISSION

[Docket No. 72-9]

### Notice of Issuance of Amendment to Materials License SNM-2504, Department of Energy Fort St. Vrain Independent Spent Fuel Storage Installation

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment 7 to Materials License No. SNM-2504 held by the U.S. Department of Energy (DOE) for the receipt, possession, storage, and transfer of spent fuel at the Fort St. Vrain (FSV) independent spent fuel storage installation (ISFSI), located in Weld County, Colorado. The amendment is effective as of the date of issuance.

By application dated October 19, 1999, DOE requested an amendment to its ISFSI license to revise the dates for terminating its interim physical protection measures and implementing its new physical protection plan.

This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that, pursuant to 10 CFR 51.22(c)(12), an environmental assessment need not be prepared in connection with issuance of the amendment.

Documents related to this action are available for public inspection at the Commission's Public Document Room located at the Gelman Building, 2120 L Street, NW, Washington, DC 20555.
