

III) exercise scheduling meeting held in White Plains, New York, in December 1998, the planned December 2001 exercise for Pilgrim was shifted to May 2002, which is beyond the required interval.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that the proposed action involves an administrative activity (a scheduler change in conducting an exercise) unrelated to plant operations.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not involve any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the "Final Environmental Statement Related to the Operation of Pilgrim Nuclear Power Station, Boston Edison Company," dated May 1972 .

Agencies and Persons Consulted

In accordance with its stated policy, on August 5, 1999, the staff consulted with the Massachusetts State official,

Mr. James Muckerhide of the Massachusetts Emergency Management Agency, regarding the environmental impact of the proposed action. The State official had no comments. In addition, staff members of NRC Region I and FEMA were contacted by phone and provided favorable recommendations to approve the requested exemption.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated July 30, 1999, as supplemented on September 23, 1999, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC. Publically available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (The Electronic Reading Room).

Dated at Rockville, Maryland, this 24 day of March 2000.

For the Nuclear Regulatory Commission.

Alan B. Wang,

Project Manager, Section 2, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

OFFICE OF MANAGEMENT AND BUDGET

Privacy Act of 1974; Revisions to the Existing System of Records

AGENCY: Office of Management and Budget, Executive Office of the President.

ACTION: Proposed revisions to an existing system of records.

SUMMARY: The Office of Management and Budget (OMB) is deleting from its inventory eleven systems of records because the information is no longer maintained by OMB due to organizational changes. An additional three systems of records will be updated to more accurately reflect position titles, addresses, and descriptions of the systems.

DATES: This proposed action will be effective without further notice on March 30, 2000, unless comments are received which result in a contrary determination.

ADDRESSES: Darrell A. Johnson, Freedom of Information Act Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503. Comments up to three pages in length may be submitted via facsimile to (202) 395-3952. Electronic mail comments may be submitted via Internet to djohnson@omb.eop.gov. Please include the full body of electronic mail comments in the text and not as an attachment. Please include the name, title, organization, postal address, and E-mail address in the text of the message.

FOR FURTHER INFORMATION CONTACT: Darrell A. Johnson, FOIA Officer, Office of Management and Budget, at (202) 395-5715.

SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, the Office of Management and Budget conducted a review of its Privacy Act systems of records and determined that eleven systems of records can be deleted from its inventory because the data is neither collected nor maintained by OMB. The systems of records to be deleted are: OMB/SPD/01, "Clearance Office Information System"; FAI-1, "Federal Procurement and Logistics Personnel Information System"; FAI-2, "Individual Credentialing Services Program"; OMB/LIBRY/01, "Library Circulation System"; OMB/BUDGO/01, "Payroll and Leave Records"; OMB/

BUDGO/03, "Personnel Summary"; OMB/BUDGO/04, "Professional Staff Roster"; OMB/RECDS/01, "Researcher Request File"; OMB/ADSER/01, "Staff Directory Card"; OMB/BUDGO/02, "Staff Travel Records"; and OMB/CAVAD/01, "Veterans Education and Training Load Model." In addition, three other systems of records in OMB's inventory are being revised to incorporate address and title changes as well as to update descriptions of the systems and other data. These three systems are OMB/LEGIS/01, "Private Relief Legislation"; OMB/PERSL/01, "Recruiting and Applicant Records"; and OMB/ADSER/02, "Staff Parking Application File", and are published in their entirety. One of the revisions is the deletion from the routine use description of disclosures that are made internally within OMB. Those disclosures will continue to be made, but are authorized by 5 U.S.C. 552a(b)(1).
