The information collection is needed to establish whether a petitioning group has the characteristics necessary to be acknowledged as having a government-to-government relationship with the United States. Federal recognition makes the group eligible for benefits from the Federal government.

II. Method of Collection

The acknowledgment regulations at 25 CFR Part 83 contain seven criteria (§ 83.7) which unrecognized groups seeking Federal acknowledgment as Indian tribes must demonstrate that they meet. Information collected from petitioning groups under these regulations provide anthropological, genealogical and historical data used by the Assistant Secretary—Indian Affairs to establish whether a petitioning group has the characteristics necessary to be acknowledged as having a government-to-government relationship with the United States. Respondents are not required to retain copies of information submitted to the Bureau of Indian Affairs but will probably maintain copies for their own use. No periodic

reports are required which would impose a record-keeping requirement.

SUPPLEMENTARY INFORMATION: This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8.

Introduction

The Paucatuck Eastern Pequot Indians of Connecticut submitted a letter of intent to petition for Federal acknowledgment on June 20, 1989, and was assigned #113. Both the Paucatuck Eastern Pequot Indians of Connecticut and another petitioner, the Eastern Pequot Indians of Connecticut, assert descent and tribal continuity from the historical Eastern Pequot tribe. Both petitioners are derived from families which have been associated with the Lantern Hill reservation since the 19th century.

The Assistant Secretary—Indian Affairs (AS-IA) had placed the Eastern Pequot Indians of Connecticut (EP, #35) petition on active consideration January 1, 1998. After consideration and notification of #35 and other petitioners on the "ready, waiting for active consideration" list, the AS-IA on April 2, 1998, waived the priority provisions of 25 CFR § 83.10(d) in order to consider the petition of the Paucatuck Eastern Pequot Indians of Connecticut (Petitioner #113) simultaneously with the petition of the Eastern Pequot Indians of Connecticut (Petitioner #35). This waiver was made under the authority granted to the Secretary in 25 CFR § 1.2, and delegated to the Assistant Secretary in 290 DM 8.1, based on a finding that the waiver was in the best interest of the Indians.

This finding has been completed under the terms of the AS-IA's directive of February 7, 2000, published in the **Federal Register** on February 11, 2000 (65 FR 7052). Under the terms of the directive, this finding focuses on

evaluating the specific conclusions and description of the group presented by the petitioner to show that it has met the seven mandatory criteria and maintained a tribal community up until the present. Because evaluation of this petition was begun under the previous internal procedures, this finding includes some analyses which go beyond evaluation of the specific positions of the petitioner. Consistent with the directive, draft technical reports, begun under previous internal procedures, were not finalized.

The evaluation of these petitions pertains to Indian groups which have had both continuous recognition by the State of Connecticut and continuous existence of a state reservation since the colonial period. These unique factors provide a defined thread of continuity through periods when other forms of documentation are sparse or do not pertain directly to a specific criterion. State recognition under these circumstances is more than the identification of an entity, because it reflects the existence of a tribe. The general body of evidence has been interpreted in the context of the tribe's relationship to the colony and state.

The Paucatuck Eastern Pequot and Eastern Pequot petitioners are the continuation of a historically state-recognized tribe whose relationship with the State of Connecticut goes back to the early 1600's, possessing a common reservation. Members of the tribe occupied a somewhat different status than non-Indians within Connecticut. This evidence provides a common backbone and consistent backdrop for interpreting the evidence of continued tribal existence. When weighed in combination with this historical and continuous existence, evidence on community and political influence carries greater weight that would be the case under circumstances where there was no evidence of a longstanding relationship with the state based on being a distinct community. The greater weight is assigned for the following reasons in combination:

The historical Eastern Pequot tribe has maintained a continuous historical government-to-government relationship with the State of Connecticut since colonial times;

The historical Eastern Pequot tribe had a state reservation established in colonial times, and has retained its land area under the protection and administration of the state to the present;

The historical Eastern Pequot tribe had members enumerated specifically as tribal members on the Federal Census,
