

Airport Authority was substantially complete within the requirements of section 158.25 of Part 158. The FAA will approve or disapprove the application, in whole or in part, no later than July 21, 2000.

The following is a brief overview of the application.

PFC Application No.: 00-07-C-00-BNA.

Level of the proposed PFC: \$3.00.

Proposed charge effective date: January 1, 2002.

Proposed charge expiration date: March 1, 2002.

Total estimated net PFC revenue: \$2,094,000.

Brief description of proposed project(s): Air Cargo Ramp.

Class or classes of air carriers which the public agency has requested not be required to collect PFCs: Air Taxi.

Any person may inspect the application in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the Metropolitan Nashville Airport Authority.

Issued in Memphis, Tennessee on March 30, 2000.

LaVerne F. Reid,

Manager, Memphis Airports District Office, Southern Region.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance and Notice of Public Hearing

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favour of relief.

Canadian Pacific Railway

[Docket Number FRA-1999-6139]

The Canadian Pacific Railway (CPR), on behalf of itself and its Delaware and Hudson (D&H) and SOO Line (SOO) subsidiaries, seeks a permanent waiver of compliance with the Locomotive Safety Standards, 49 CFR 229.47(a),

which requires each car body type road locomotive be equipped with an emergency brake valve adjacent to each end exit door, that these brake pipe valve locations shall be stencilled as "EMERGENCY BRAKE VALVE" or shall be identified on adjacent badge plate. CPR seeks this waiver for 25 car body locomotives (Electro-Motive Division SD40-F models, R/N CP 9000-9024) utilized to haul freight, that have never been equipped with an emergency brake valve at the rear exit door. CPR states that they do not believe the emergency brake valve at the rear exit of these locomotives would serve a meaningful purpose since the locomotives are equipped with a rear exterior walkway which is used by crew members during reverse movements, enabling them to signal the locomotive engineer if they see a need for a brake application, and putting the crew member in a position where he could not reach the emergency brake valve, even if it was present.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. In addition, the FRA has determined that a public hearing is necessary before a final decision is made on this proposal.

Accordingly, a public hearing is hereby set for 9 a.m. on Wednesday, April 12, 2000, at DOT Headquarters, located at 400 Seventh Street, SW, Washington, DC, Room 2230. Interested parties are invited to present oral statements at the hearing. This hearing will be held immediately following a hearing being held on another waiver petition filed by CPR (see Docket Number FRA-1999-5894, available for inspection on the Internet at the docket facility's Web site at <http://dms.dot.gov>.)

The hearing will be an informal one and will be conducted in accordance with Rule 25 of the FRA Rules of Practice (49 CFR 211.25), by a representative designated by the FRA.

The hearing will be a nonadversarial proceeding and, therefore, there will be no cross-examination of persons presenting statements. The FRA representative will make an opening statement outlining the scope of the hearing. After all initial statements have been completed, those persons wishing to make brief rebuttal statements will be given the opportunity to do so in the same order in which they made their initial statements. Additional procedures, if necessary for the conduct of the hearing, will be announced at the hearing.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA-1999-

6139) and must be submitted to the DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 Seventh Street SW, Washington, DC., 20590.

Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Issued in Washington, DC, on March 29, 2000.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

[Docket No. RSPA-2000-6944 (Notice No. 00-1)]

Information Collection Activities

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, RSPA invites comments on certain information collections pertaining to hazardous materials transportation for which RSPA intends to request approval from the Office of Management and Budget (OMB).

DATES: Interested persons are invited to submit comments on or before June 5, 2000.

ADDRESSES: Submit written comments to the Dockets Management System, U.S. Department of Transportation, 400 Seventh Street, SW, Washington, DC 20590-0001. Comments should identify the Docket Number RSPA-2000-6944 and be submitted in two copies. Persons wishing to receive confirmation of receipt of their comments should include a self-addressed stamped postcard. Comments may also be submitted to the docket electronically by logging onto the Dockets Management System website at <http://dms.dot.gov>. Click on "Help & Information" to obtain instructions for

filing the document electronically. In every case, the comment should refer to the Docket number "RSPA-2000-6944".

The Dockets Management System is located on the Plaza Level of the Nassif Building, at the above address. Public dockets may be reviewed at the address above between the hours of 9:00 a.m. to 5:00 p.m., Monday through Friday, excluding Federal holidays. In addition, the Notice and all comments can be reviewed on the Internet by accessing the Hazmat Safety Homepage at "http://hazmat.dot.gov."

Requests for a copy of an information collection should be directed to Deborah Boothe, Office of Hazardous Materials Standards (DHM-10), at the address and telephone number listed below.

FOR FURTHER INFORMATION CONTACT: Deborah Boothe, Office of Hazardous Materials Standards (DHM-10), Research and Special Programs Administration, Room 8422, 400 Seventh Street, SW, Washington, DC 20590-0001, Telephone (202) 366-8553.

SUPPLEMENTARY INFORMATION: Section 1320.8(d), Title 5, Code of Federal Regulations requires that RSPA provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This notice identifies information collections that RSPA is submitting to OMB for extension. The collections are contained in the Hazardous Materials Regulations (HMR; 49 CFR 171-180). RSPA has revised burden estimates, where appropriate, to reflect current reporting levels for adjustments based on changes in proposed or final rules published since the information collections were last approved. The following information is provided for each information collection: (1) Title of the information collection, including former title if a change is being made; (2) OMB control number; (3) summary of the information collection activity; (4) description of affected public; (5) estimate of total annual reporting and recordkeeping burden; and (6) frequency of collection. RSPA will request a three-year term of approval for each information collection activity and, when approved by OMB, publish notice of the approval in the **Federal Register**.

RSPA requests comments on the following information collection requests:

Title: Rail Carriers and Tank Car Tanks Requirements.

OMB Control Number: 2137-0559.

Summary: This information collection consolidates and describes the information collection provisions in parts 172, 173, 174, 179, and 180 of the

HMR on the transportation of hazardous materials by rail and the manufacture, qualification, maintenance and use of tank cars. The types of information collected include:

(1) Approvals of the AAR Tank Car Committee: An approval is required from the AAR Tank Car Committee for a tank car to be used for a commodity other than those specified in part 173 and on the certificate of construction. This information is used to ascertain whether a commodity is suitable for transportation in a tank car. AAR approval also is required for an application for approval of designs, materials and construction, conversion or alteration of tank car tanks constructed to a specification in part 179 or an application for construction of tank cars to any new specification. This information is used to ensure that the design, construction or modification of a tank car or the construction of a tank car to a new specification is performed in accordance with the applicable requirements.

(2) Progress reports: Each owner of a tank car that is required to be modified to meet certain requirements specified in § 173.31(b) must submit a progress report to the Federal Railroad Administration (FRA). This information is used by FRA to ensure that all affected tank cars are modified before the regulatory compliance date.

(3) FRA approvals: An approval is required from FRA to transport a bulk packaging (such as a portable tank, IM portable tank, intermediate bulk container, cargo tank, or multi-unit tank car tank) containing a hazardous material in container-on-flat-car or trailer-on-flat-car service other than as authorized by § 174.63. FRA uses this information to ensure that the bulk package is properly secured using an adequate restraint system during transportation. Also an FRA approval is required for the movement of any tank car that does not conform to the applicable requirements in the HMR. RSPA proposed (September 30 1999; 64 FR 53169) to broaden this provision to include the movement of covered hopper cars, gondola cars, and other types of railroad equipment when they no longer conform to Federal law but may safely be moved to a repair location. These latter movements are currently being reported under the information collection for exemption applications.

(4) Manufacturer reports and certificate of construction: These documents are prepared by tank car manufacturers and are used by owners, users and FRA personnel to verify that

rail tank cars conform to the applicable specification.

(5) Quality Assurance Program: Facilities that build, repair and ensure the structural integrity of tank cars are required to develop and implement a quality assurance program. This information is used by the facility and DOT compliance personnel to ensure that each tank car is constructed or repaired in accordance with the applicable requirements.

(6) Inspection reports: A written report must be prepared and retained for each tank car that is inspected and tested in accordance with § 180.509 of the HMR. Rail carriers, users, and the FRA use this information to ensure that rail tank cars are properly maintained and in safe condition for transporting hazardous materials.

Affected Public: Manufacturers, owners and rail carriers of tank cars.

Annual Reporting and Recordkeeping: 2,759.

Number of Respondents: 260.

Total Annual Responses: 16,640.

Total Annual Burden Hours: 2,759.

Frequency of Collection: Annually.

Title: Requirements for Cargo Tanks.

OMB Control Number: 2137-0014.

Summary: This information collection consolidates and describes the information collection provisions in parts 178 and 180 of the HMR involving the manufacture, qualification, maintenance and use of all specification cargo tank motor vehicles. Also it includes the information collection and recordkeeping requirements for persons who are engaged in the manufacture, assembly, requalification and maintenance of DOT specification cargo tank motor vehicles. The types of information collected include:

(1) Registration Statements: Cargo tank manufacturers and repairers and cargo tank motor vehicle assemblers are required to be registered with DOT by furnishing information relative to their qualifications to perform the functions in accordance with the HMR. The registration statements are used to identify these persons so that DOT can ensure that they have the knowledge and skills necessary to perform the required functions and that they are performing the specified functions in accordance with the applicable regulations.

(2) Requalification and maintenance reports: These reports are prepared by persons who requalify or maintain cargo tanks. This information is used by cargo tank owners, operators and users, and DOT compliance personnel to verify that the cargo tanks are requalified, maintained and are in proper condition

for the transportation of hazardous materials.

(3) Manufacturers' data reports, certificates and related papers: These reports are prepared by cargo tank manufacturers, certifiers and are used by cargo tank owners, operators, users and DOT compliance personnel to verify that a cargo tank motor vehicle was designed and constructed to meet all requirements of the applicable specification.

Affected Public: Manufacturers, assemblers, repairers, requalifiers, certifiers and owners of cargo tanks.

Annual Reporting and Recordkeeping Burden: 106,262.

Number of Respondents: 41,366.

Total Annual Responses: 132,600.

Total Annual Burden Hours: 106,262.

Frequency of Collection: Periodically.

Title: Rulemaking, Exemption, and Preemption Requirements.

OMB Control Number: 2137-0051.

Summary: This collection of information applies to rulemaking procedures regarding the Hazardous Materials Regulations (HMR). Specific areas covered in this information collection include Part 106, Subpart B, "Procedures for Adoption of Rules," Part 107, subpart B, "Exemptions," Part 107, Subpart C, "Preemption." The Federal hazardous materials transportation law directs the Secretary of Transportation to prescribe regulations for the safe transportation of hazardous materials in commerce. RSPA is authorized to accept petitions for rulemaking and for reconsideration of rulemakings, as well as applications for exemptions, preemption determinations and waivers of preemption. The types of information collected include:

(1) Petitions for Rulemaking: Any person may petition the Associate Administrator for Hazardous Materials Safety to establish, amend, or repeal a substantive regulation, or may petition the Chief Counsel to establish, amend, or repeal a procedural regulation in Parts 106 or 107.

(2) Petitions for Reconsideration: Except as provided in § 106.39(d), any person may petition the Associate Administrator for reconsideration of any regulation issued under Part 106, or may petition the Chief Counsel for reconsideration of any procedural regulation issued under Part 106 and contained in Part 106 or 107.

(3) Application for Exemption: Any person applying for an exemption must include the citation of the specific regulation from which the applicant seeks relief; specification of the proposed mode or modes of transportation; detailed description of the proposed exemption (e.g.,

alternative packaging, test procedure or activity), including written descriptions, drawings, flow charts, plans and other supporting documents, etc.

(4) Application for Preemption Determination: Any person directly affected by any requirement of a State, political subdivision, or Indian tribe may apply for a determination whether that requirement is preempted under 49 U.S.C. 5125, or regulations issued thereunder. The application must include the text of the State or political subdivision or Indian tribe requirement for which the determination is sought; specify each requirement of the Federal hazardous material transportation law or the regulations issued thereunder with which the applicant seeks the State, political subdivision or Indian tribe requirement to be compared; explanation of why the applicant believes the State or political subdivision or Indian tribe requirement should or should not be preempted under the standards of § 107.202; and how the applicant is affected by the State or political subdivision or Indian tribe requirements.

(5) Waivers of Preemption: With the exception of requirements preempted under 49 U.S.C. 5125(c), any person may apply to the Associate Administrator for a waiver of preemption with respect to any requirement that the State or political subdivision thereof or an Indian tribe acknowledges to be preempted under the Federal hazardous material transportation law or the regulations issued thereunder, or that has been determined by a court of competent jurisdiction to be so preempted. The Associate Administrator may waive preemption with respect to such requirement upon a determination that such requirement affords an equal or greater level of protection to the public than is afforded by the requirement of the Federal hazardous material transportation law or the regulations issued thereunder and does not unreasonably burden commerce.

The information collected under these application procedures is used in the review process by RSPA in determining the merits of the petitions for rulemakings and for reconsideration of rulemakings, as well as applications for exemptions, preemption determinations and waivers of preemption to the HMR. The procedures governing these petitions for rulemaking and for reconsideration of rulemakings are covered in Subpart A of Part 106. Applications for exemptions, preemption determinations and waivers of preemption are covered in Subparts B and C of Part 107. Rulemaking

procedures enable RSPA to determine if a rule change is necessary, is consistent with public interest, and maintains a level of safety equal to or superior to that of current regulations. Exemption procedures provide the information required for analytical purposes to determine if the requested relief provides for a comparable level of safety as provided by the HMR. Preemption procedures provide information for RSPA to determine whether a requirement of a State, political subdivision, or Indian tribe is preempted under 49 U.S.C. 5125, or regulations issued thereunder, or whether a waiver of preemption should be issued.

Affected Public: Shippers, carriers, packaging manufacturers, and other affected entities.

Total Reporting and Recordkeeping Burden: 4,219.

Number of Respondents: 3,304.

Total Annual Responses: 4,294.

Total Annual Burden Hours: 4,219.

Frequency of Collection: Periodically.

Title: Approvals for Hazardous Materials.

OMB No.: 2137-0557.

Summary: This information collection consolidates and describes the information collection provisions in parts 107, 172, 173, 174, 176, and 178 regarding requirements for approvals for hazardous materials in the HMR. Responses to these information collection requirements are required to obtain benefits, such as to become an approval or certification agency or to obtain a variance from packaging or handling requirements based on information provided by the respondent. The types of information collected include: applications to become designated approval agencies, independent cylinder testing agencies, and foreign manufacturers of cylinders; applications for approval of classifications of new explosives; applications for safety determinations to the adequacy of old packagings for materials with special hazards; applications to allow the regulated public to use alternative packagings or test methods; etc.

The information collected is used to:

(1) determine whether applicants who apply to become designated approval agencies are qualified to evaluate package design, test packages, classify hazardous materials, etc.;

(2) verify that various containers and special loading requirements for vessels meet the requirements of the HMR;

(3) assure that regulated hazardous materials pose no danger to life and property during transportation; and

(4) allow minor variations to regulatory requirements (as specifically authorized by regulation), based on information provided by respondents, without requiring the respondent to apply using less timely and more burdensome exemption procedures.

Affected Public: Businesses and other entities who must meet the approval requirements in the HMR.

Annual Reporting and Recordkeeping: 18,381.

Total Respondents: 3,518.

Total Annual Responses: 3,869.

Total Annual Burden Hours: 18,381.

Frequency of Collection: On occasion.

Issued in Washington, DC on March 30, 2000.

Edward T. Mazzullo,

Director, Office of Hazardous Materials Standards.

BILLING CODE 4910-60-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 33854]

Meridian Southern Railway, LLC— Acquisition and Operation Exemption—Line of Kansas City Southern Railway Company

Meridian Southern Railway, LLC (MDS), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to acquire (by purchase) Kansas City Southern Railway Company's ownership interest in, and to operate, approximately 54.5 miles of rail line between approximately milepost 134.2 at Meridian, MS, and approximately milepost 79.7 at Waynesboro, MS, in Clarke, Lauderdale and Wayne Counties, MS.¹

The transaction is expected to be consummated on or after March 31, 2000, the effective date of the exemption (7 days after the exemption was filed).

¹ MDS certifies that its projected revenues as a result of this transaction will not result in the creation of a Class I or Class II rail carrier.

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 33854, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW., Washington, DC 20423-0001. In addition, one copy of each pleading must be served on Kevin M. Sheys, Oppenheimer Wolff Donnelly & Bayh LLP, 1350 Eye Street, NW., Suite 200, Washington, DC 20005.

Board decisions and notices are available on our website at "WWW.STB.DOT.GOV."

Decided: March 29, 2000.

By the Board, David M. Konschnik,
Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

[FR Doc. 00-8237 Filed 4-4-00; 8:45 am]

BILLING CODE 4915-00-P

DEPARTMENT OF THE TREASURY

Debt Management Advisory Committee; Meeting

Notice is hereby given, pursuant to 5 U.S.C. App. § 10(a)(2), that a meeting will be held at the U.S. Treasury Department, 15th and Pennsylvania Avenue, NW., Washington, DC, on May 2, 2000, of the following debt management advisory committee:

The Bond Market Association
Treasury Borrowing Advisory
Committee.

The agenda for the meeting provides for a technical background briefing by Treasury staff, followed by a charge by the Secretary of the Treasury or his designate that the committee discuss particular issues, and a working session. Following the working session, the committee will present a written report of its recommendations.

The background briefing by Treasury staff will be held at 9:00 a.m. Eastern time and will be open to the public. The remaining sessions and the committee's reporting session will be closed to the public, pursuant to 5 U.S.C. App. 10(d).

This notice shall constitute my determination, pursuant to the authority placed in heads of departments by 5 U.S.C. App. 10(d) and vested in me by Treasury Department Order No. 101-05, that the closed portions of the meeting are concerned with information that is exempt from disclosure under 5 U.S.C. 552b(c)(9)(A). The public interest requires that such meetings be closed to the public because the Treasury Department requires frank and full advice from representatives of the financial community prior to making its final decision on major financing operations. Historically, this advice has been offered by debt management advisory committees established by the several major segments of the financial community. When so utilized, such a committee is recognized to be an advisory committee under 5 U.S.C. App. 3.

Although the Treasury's final announcement of financing plans may not reflect the recommendations provided in reports of the advisory committee, premature disclosure of the committee's deliberations and reports would be likely to lead to significant financial speculation in the securities market. Thus, these meetings fall within the exemption covered by 5 U.S.C. 552b(c)(9)(A).

The Office of Financial Markets is responsible for maintaining records of debt management advisory committee meetings and for providing annual reports setting forth a summary of committee activities and such other matters as may be informative to the public consistent with the policy of 5 U.S.C. 552b.

Dated: March 29, 2000.

Lee Sachs,

Assistant Secretary, Financial Markets.
