Proposed Establishment of Class E Airspace; Minneapolis, Flying Cloud Airport, Minnesota

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This action proposes to establish Class E airspace at Minneapolis, Flying Cloud Airport, MN. Flying Cloud Airport is served by Federal Aviation Regulations Part 135 (14 CFR Part 135) air carrier operations. Controlled airspace extending upward from the surface is needed to contain aircraft executing instrument flight procedures and provide a safer operating environment when the control tower is closed. The airport meets the minimum communications and weather observation and reporting requirements for controlled airspace extending upward from the surface. This action proposes to create controlled airspace with a 4.0-mile radius for this airport.

DATES: Comments must be received on or before May 22, 2000.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Office of the Regional Counsel, AGL–7, Rules Docket No. 00–AGL–08, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

The Proposal

The FAA is considering an amendment to 14 CFR part 71 to establish Class E airspace at Minneapolis, Flying Cloud Airport, MN, to accommodate and Part 135 air carrier aircraft executing instrument flight rules procedure during periods when the control tower is closed. The area would be depicted on appropriate aeronautical charts. Class E airspace designations for airspace areas extending upward from the surface of the earth are published in paragraph 6002 of FAA Order 7400.9G dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an establishment body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9G, Airspace Designations and Reporting Points, dated September 1, 1999, and effective September 16, 1999, is amended as follows:
