*Title:* Labeling of Sulfites in Alcoholic Beverages.

*OMB Number:* 1512-0469

*Abstract:* In accordance with our consumer protection responsibilities, as mandated by law, ATF requires label disclosure statements on all alcoholic beverage products released from U.S. bottling premises or customs custody that contain 10 parts per million or more of sulfites. Sulfiting agents have been shown to produce allergic-type responses in humans, particularly asthmatics, and the presence of these

ingredients in alcohol beverages may have serious health implications for those who are intolerant of sulfites. Disclosure of sulfites on labels of alcohol beverages will minimize their exposure to these ingredients.
