NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the

following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Pub. L. 104–13. This is the second notice for public comment; the first was published in the **Federal Register** at 65 FR 14320, and no comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725–17th Street, NW, Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send email to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703–306–1125 X2017.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title: National Science Foundation Grant Proposal Guide.

OMB Control Number: 3145–0080.

Summary of Collection: The Federal Acquisition Regulations (FAR) Subpart 15.4—“Solicitation and Receipt of Proposals” prescribes policies and procedures for preparing and issuing Requests for Proposals. The FAR System has been developed in accordance with the requirement of the Office of Federal Procurement Policy Act of 1974, as

amended. The NSF Act of 1950, as amended, 42 U.S.C. 1870, Sec. II. states that NSF has the authority to:

(c) Enter into contracts or other arrangements, or modifications thereof, for the carrying on, by organizations or individuals in the United States and foreign countries, including other government agencies of the United States and of foreign countries, of such scientific or engineering activities as the Foundation deems necessary to carry out the purposes of this Act, and, at the request of the Secretary of Defense, specific scientific or engineering activities in connection with matters relating to international cooperation or national security, and, when deemed appropriate by the Foundation, such contracts or other arrangements or modifications thereof, may be entered into without legal consideration, without performance or other bonds and without regard to section 5 of title 41, U.S.C.

Use of the Information: Request for Proposals (RFP) is used to competitively solicit proposals in response to NSF need for services. Impact will be on those individuals or organizations who elect to submit proposals in response to the RFP. Information gathered will be evaluated in light of NSF procurement requirements to determine who will be awarded a contract.

Estimate of Burden: The Foundation estimates that, on average, 558 hours per respondent will be required to complete the RFP.

Respondents: Individuals; business or other for-profit; not-for-profit institutions; Federal government; state, local, or tribal governments.

Estimated Number of Responses: 75.

Estimated Total Annual Burden on Respondents: 41, 580 hours.

Dated: May 24, 2000.

Suzanne H. Plimpton,

Reports Clearance Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–302]

In the Matter of Florida Power Corporation (Crystal River Unit No. 3); Order Approving Application Regarding Proposed Acquisition by CP&L Holdings, Inc. of Florida Progress Corporation

I

Florida Power Corporation (FPC) is the majority owner and a holder of

Facility Operating License No. DPR-72 for Crystal River Unit 3 (CR-3), which was issued December 3, 1976. FPC owns a 91.7806% interest in CR-3, with the remaining interest held by nine minority owners. FPC is the licensed operator of CR-3.

II

Pursuant to Section 184 of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.80, FPC filed an application dated January 31, 2000, requesting approval of the indirect transfer of control of FPC's interest in the CR-3 operating license that will occur under a proposed share exchange transaction between Florida Progress Corporation (Progress), the parent of FPC, and CP&L Holdings, Inc. (Holdings). Holdings is being formed by Carolina Power and Light Company (CP&L) as part of an internal CP&L reorganization. Upon consummation of the share exchange transaction, under which Holdings will acquire all of the outstanding shares of Progress, Progress will become a wholly owned subsidiary of Holdings. FPC, which will remain a wholly owned subsidiary of Progress, will also become an indirect subsidiary of Holdings upon completion of the acquisition of Progress by Holdings. FPC will retain its existing ownership interest in and the license for CR-3 and remain the licensed operator of CR-3 after the share exchange transaction. No physical changes to the facility or operational changes are being proposed in the application. Additional information concerning this indirect transfer is contained in a letter from CP&L to the U.S. Nuclear Regulatory Commission (Commission) dated February 14, 2000, and in a letter from FPC to the Commission dated March 28, 2000. Notice of the application and an opportunity for hearing was published in the **Federal Register** on March 17, 2000 (65 FR 14631). No hearing requests were filed.

Under 10 CFR 50.80, no license shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission gives its consent in writing. Upon review of the information submitted by FPC in its application, and the other information before the Commission, the NRC staff has determined that the proposed acquisition of Progress by Holdings through the proposed share exchange transaction will not affect the qualifications of FPC as a holder of the license referenced above, and that the indirect transfer of the license, to the extent effected by the acquisition, is otherwise consistent with applicable provisions of law, regulations, and

orders issued by the Commission subject to the conditions set forth herein. These findings are supported by a Safety Evaluation dated May 22, 2000.

III

Accordingly, pursuant to Sections 161b, 161i, 161o, and 184 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2201(b), 2201(i), 2201(o) and 2234; and 10 CFR 50.80, *It is hereby ordered* that the application regarding the subject acquisition is approved, subject to the following conditions:

(a) FPC shall provide the Director of the Office of Nuclear Reactor Regulation a copy of any application, at the time it is filed, to transfer (excluding grants of security interests or liens) from FPC to its existing or proposed direct or indirect parent or to any other affiliated company, facilities for the production, transmission, or distribution of electric energy having a depreciated book value exceeding ten percent (10%) of FPC's consolidated net utility plant, as recorded on FPC's book of accounts,

(b) Should the acquisition of Progress by Holdings not be completed by June 1, 2001, this Order shall become null and void, provided, however, on application and for good cause shown, such date may be extended. This Order is effective upon issuance.

For further details with respect to this action, see the initial application dated January 31, 2000, additional information contained in a letter from CP&L to the Commission dated February 14, 2000, a letter from FPC to the Commission dated March 28, 2000, and the Safety Evaluation dated May 23, 2000, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

For the Nuclear Regulatory Commission.

Dated at Rockville, Maryland, this 22nd day of May 2000.

Roy P. Zimmerman,

Acting Director, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Nuclear Waste; Renewal Notice

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: This notice is to announce the renewal of the Advisory Committee on

Nuclear Waste (ACNW) for a period of two years.

SUPPLEMENTARY INFORMATION: The U.S. Nuclear Regulatory Commission (NRC) has determined that the renewal of the charter for the Advisory Committee on Nuclear Waste for the two year period commencing on May 24, 2000, is in the public interest, in connection with duties imposed on the Commission by law. This action is being taken in accordance with the Federal Advisory Committee Act, after consultation with the Committee Management Secretariat, General Services Administration.

The purpose of the Advisory Committee on Nuclear Waste is to report to and advise the U.S. Nuclear Regulatory Commission (NRC) on nuclear waste management and other related activities, as directed by the Commission. This includes 10 CFR parts 60 and 61 and other applicable regulations and legislative mandates. In performing its work, the Committee will examine and report on those areas of concern referred to it by the Commission and may undertake studies and activities on its own initiative, as appropriate. Emphasis will be on protecting the public health and safety in the disposal of nuclear waste. The Committee will interact with representatives of NRC, ACRS, other federal agencies, state and local agencies, Indian Tribes, and private, international and other organizations as appropriate to fulfill its responsibilities.

FOR FURTHER INFORMATION CONTACT: John T. Larkins, Executive Director of the Committee, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-7360.

Dated: May 24, 2000.

Andrew L. Bates,

Federal Advisory Committee Management Officer.
