Additional Remarks

Remarks continued on additional page Yes No

This collection of information requires that each grantee participating in the Tenant Opportunity Program (TOP) submit semi-annual reports that enable HUD to evaluate the progress in carrying out the approved TOP Work Plan/Budget. No grant payments will be approved for drawdown through the Line of Credit Control System/Voice Response System (LOCCS/VRS) for grantees with overdue progress reports. This information will be used by HUD to monitor grantees and their administration of the grant to ensure that Federal funds are spent according to the work plan/budget. Responses to this collection of information are voluntary. Authority for this collection of information is Sections 23(c) and (g) of the U.S. Housing Act of 1937 as amended by 554 of the Cranston-Gonzales National Affordable Housing Act P.L. 101-625. The information requested does not lend itself to confidentiality.

Freedom of Information Act: Semi-Annual reports submitted are subject to disclosure under the Freedom of Information Act (FOIA). To assist HUD in determining whether to release information contained in the report in the event a FOIA request is received, the recipient may, through clear earmarking or otherwise, indicate those portions of its report that it believes should not be disclosed. The recipient's views will be used solely to aid HUD in preparing its response to a FOIA request; HUD is required by the FOIA to make an independent evaluation of the information. HUD suggests that the recipient provide as basis, when possible, for its belief that confidential treatment is appropriate; general assertions or blanket requests for confidentiality, without more information, are of limited value to HUD in making determinations concerning the release of information under FOIA. HUD is required to segregate disclosable information from non-disclosable items, so an applicant should be careful to identify each portion of the application for which confidential treatment is requested. HUD emphasizes that the presence or absence of comments or earmarking regarding confidential information will have no bearing on the evaluation of reports submitted in response to this solicitation.

Public reporting burden for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection information unless that collection displays a valid OMB control number.
