

**Transmittal No. 00-43****Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act****Annex  
Item No. vi****(vi) . Sensitivity of Technology:**

**1. The AIM-120B Advanced Medium Range Air-to-Air Missile (AMRAAM) is a new generation air-to-air missile. The missile, including the guidance section, is classified confidential. Information on certain technologies embedded in the AIM-120B missile, including the software and the target detection device, range in classification from unclassified to secret. This missile incorporates an active radar with an inertial reference unit and microcomputer system, which makes the missile less dependent upon the fire-control system of the aircraft. This state-of-the-art technology is used in the AIM-120B to provide the missile with its unique beyond-visual-range capability.**

**2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.**

**3. A determination has been made that the Israel can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.**

BILLING CODE 5001-10-C

**DEPARTMENT OF DEFENSE****Office of the Secretary; Defense  
Science Board Task Force on  
Improving Fuel Efficiency of Weapons  
Platforms****ACTION:** Notice of Meeting.

**SUMMARY:** The Defense Science Board Task Force on Improving Fuel Efficiency of Weapons Platforms will meet in closed session on June 20-21 at Carderock Division, Naval Surface Warfare Center, 9500 MacArthur Boulevard, West Bethesda, MD 20817-5700.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition and Technology on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, The Task Force will review fuel-

efficient technologies, including new or improved fuels, engines, Alternative Fueled Vehicles, and other advanced technologies and assess their operational, logistical, cost, and environmental impacts for a range of practical implementation scenarios.

Due to critical mission requirements in finalizing briefings for this Task Force, there is insufficient time to provide timely notice required by Section 10(a)(2) of the Federal Advisory Committee Act and Subsection 101-6.1015(b) of the GSA Final Rule on Federal Advisory Committee Management, 41 CFR Part 101-6, which further requires publication at least 15 calendar days prior to the meeting of the Task Force on June 20-21, 2000.

Persons interested in further information should call Commander Brian D. Hughes, USN, at (703) 695-4157.

Dated: June 13, 2000.
