SUPPLEMENTARY INFORMATION:

Background

In 1998, Vice President Gore's National Partnership for Reinventing Government (NPR) brought together representatives from more than a dozen Federal agencies to form an inter-agency working group to explore ways of improving the Nation's hazard warning systems to save lives. This group is working to do this by finding combined solutions to give people better, faster, and more effective hazard warnings. As a result of its efforts, the inter-agency working group published *Saving Lives With an All-Hazard Warning Network* in December 1999. This report made several important observations about the current warning system and the future needs for effective warnings.

Currently, the National Oceanic and Atmospheric Administration (NOAA) Weather Radio is the most direct way to warn people about all impending
