BLM and DEQ have determined that selection of one of these additional reclamation alternatives may constitute a substantial change in the proposed action and that a Supplemental EIS is should be prepared. The Supplemental EIS will address alternative reclamation plans for the Zortman and Landusky mines that have been developed through the consultation process. The Supplemental EIS will be the basis for a new ROD to select a final reclamation plan for the Zortman and Landusky mines. Interim reclamation will continue at the mines during preparation of the Supplemental EIS in order to prevent unnecessary or undue degradation. The BLM and DEQ will be co-lead agencies for the preparation of the Supplemental EIS. The agencies anticipate holding informational meetings in September of 2000 and requesting public comments on the draft supplemental EIS in the spring of 2001.
