SUPPLEMENTARY INFORMATION:

I. Abstract

The SPD is a household-based survey designed as a data collection vehicle that can provide the basis for an overall evaluation of how well welfare reforms are achieving the aims of the Administration and the Congress and meeting the needs of the American people.

The SPD is a large, longitudinal, nationally-representative study that measures participation in welfare programs, including both programs that are being reformed and those that remain unchanged. The SPD measures other important social, economic, demographic, and family changes that will allow analysis of the effectiveness of the welfare reforms.

With the August 22, 1996, signing of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Pub L. 104-193), the Census Bureau is required to conduct the SPD, using as the sample the households from the 1992 and 1993 Survey of Income and Program Participation (SIPP). The information obtained will be used to evaluate the impact of this law on a sample of previous welfare recipients and future recipients of assistance under new state programs funded under this law as well as assess the impact on other low-income families. Issues of particular attention include welfare dependency, the length of welfare spells, the causes of repeat welfare spells, educational enrollment and work training, health care utilization, out-of-wedlock births, and the status of children.

The 2001 SPD is the fourth year of data collection using the same core questions. The inclusion of an adolescent self-administered questionnaire is also planned. In the 2000 SPD, a one-time topical module collected the residential histories of

children. The 1999 SPD collected core data plus extended measures of child well-being. The 1998 SPD included an adolescent self-administered questionnaire similar to the one planned for 2001. A bridge survey using the Current Population Survey March questionnaire was conducted in the spring of 1997 to provide a link to baseline data for the period prior to the implementation of the welfare reform activities.

II. Method of Collection

The SPD is a longitudinal study of welfare-related activities with the sample respondents originally selected from 1992 and 1993 SIPP panels. Interviews were conducted in 1997, 1998, 1999, and 2000. Subsequent data collections are scheduled for 2001 and 2002. Data are collected using a computer-assisted interviewing (CAI) instrument from a nationally representative sample of the noninstitutionalized resident population living in the United States for all individuals, families, and households. Individuals who are at least 15 years of age at the time of the interview will be eligible to be in the survey. A separate paper interview will be obtained for each adolescent member, ages 12+, of the sample households. The adolescent interview is administered either by audio cassette, while the adolescent records the answers in a paper answer booklet or by a field representative asking the questions using a paper questionnaire.

A small sample of households is scheduled for reinterview. The reinterview process assures that all households were properly contacted and that the data are valid.

April 2000 Sunset Reviews; Correction to Final Result and Revocation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Correction to April 2000 Sunset Reviews; Final Result and Revocation.

SUMMARY: On July 7, 2000, the Department of Commerce ("the Department") published in the **Federal Register** the final results of the sunset review of the antidumping duty order on pure magnesium from Russia.¹ Subsequent to the publication of the final results, we identified an error in the "Effective Date of Revocation" section of the notice. Therefore, we are correcting and clarifying this error.

The error lies in the first sentence of the section: "Pursuant to section 751(c)(6)(A)(iv) of the Act, the Department will instruct the United States Customs Service to terminate the

Certain Cased Pencils from the People's Republic of China: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: September 5, 2000.

FOR FURTHER INFORMATION CONTACT: Paul Stolz at (202) 482-4474 or Howard Smith at (202) 482-5193, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW, Washington, DC 20230.

Time Limits

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department of Commerce

(the Department) to make a preliminary determination within 245 days after the last day of the anniversary month of an order or finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the preliminary results of review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days and for the final results to 180 days (or 300 days if the Department does not extend the time limit for the preliminary results) from the date of publication of the preliminary results.

Background

On January 26, 2000, the Department published a notice of initiation of administrative review of the antidumping duty order on certain cased pencils from the People's Republic of China, covering the period December 1, 1998 through November 30, 1999 (65 FR 4228). The preliminary results are currently due no later than September 1, 2000.

Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of this review within the original time limit. Therefore the Department is extending the time limit for completion of the preliminary results until no later than December 30, 2000. *See* Decision Memorandum from Thomas F. Futtner to Holly A. Kuga, dated concurrently with this notice, which is on file in the Central Records Unit, Room B-099 of the main Commerce building. We intend to issue the final results no later than 120 days after the publication of the preliminary results notice.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: August 24, 2000.

Holly A. Kuga,

Acting Deputy Assistant Secretary for Import Administration.

Furfuryl Alcohol From the People's Republic of China and Thailand; Final Results of Antidumping Duty Sunset Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty sunset reviews: Furfuryl Alcohol from the People's Republic of China and Thailand.

SUMMARY: On May 1, 2000, the Department of Commerce (the "Department") published the notice of initiation of sunset review of the antidumping duty orders on furfuryl from the People's Republic of China ("PRC") and Thailand (65 FR 25309). On the basis of a notice of intent to participate and adequate substantive response filed on behalf of a domestic interested party, and inadequate response from respondent interested parties, we determined to conduct expedited sunset reviews. Based on our analysis of the comments received, we find that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping at the levels listed below in the section entitled "Final Results of Review."

EFFECTIVE DATE: September 5, 2000.
