

is conserved among genetically divergent strains of HEV, the neutralizing monoclonal antibodies may be useful in the diagnosis, treatment and/or prevention of hepatitis E. Furthermore, immunogens that encompass this neutralization site may be used in vaccination to effectively prevent, and/or reduce the incidence of HEV infection. Polypeptides containing this neutralization site may be useful in evaluating vaccine candidates for the production of neutralizing antibodies to HEV.

Viral Glycoprotein Subunit Vaccine

Richard Compans, Ranjit Ray, U.S. Patent 4,790,987 issued 13 Dec 1988.
Licensing Contact: Peter Soukas; 301/496-7056 ext. 268; e-mail: soukasp@od.nih.gov

The present invention relates to a vaccine composition useful in the prevention of virus-caused disease comprising as its active agent at least one immunogenically effective amount of immunogenic viral envelope glycoprotein complexed with a lipid. These subunit vaccine compositions are useful for the prevention of viral infections including influenza virus, parainfluenza virus, herpes virus, paramyxoviruses, rabies virus, and human T-cell lymphotropic viruses. The patent also discloses a method for preparing the vaccine compositions. A novel feature of the invention is the utilization of a dialyzable detergent for solubilization of the active component, which allows a relatively simple purification process on a large scale. Thus, these vaccines are easier to prepare than other glycoprotein subunit vaccines and retain their antigenicity to a greater extent than formalin-inactivated subunit vaccines.

Dated: October 5, 2000.

National Center for Research Resources; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Center for Research Resources Special Emphasis Panel Comparative Medicine.

Date: October 24, 2000.

Time: 3 pm to 4 pm.

Agenda: To review and evaluate grant applications.

Place: Office of Review, National Center for Research Resources, 6705 Rockledge Drive, Bethesda, MD 20892, (Telephone Conference Call).

Contact Person: Sybil A. Wellstood, PhD, Scientific Review Administrator, Office of Review, National Center for Research Resources, 6705 Rockledge Drive, MSC 7965, Room 6018, Bethesda, MD 20892-7965, 301-435-0814.

This notice is being published less than 15 days prior to the meeting due to the timing limitations imposed by the review and funding cycle.

(Catalogue of Federal Domestic Assistance Program Nos. 93.306, Comparative Medicine, 93.306; 93.333, Clinical Research, 93.333; 93.371, Biomedical Technology; 93.389, Research Infrastructure, National Institutes of Health, HHS)

Dated: October 5, 2000.

LaVerne Y. Stringfield,

Director, Office of Federal Advisory Committee Policy.
