

percent of the plants and our inspectors achieved for each category of defects. For young turkeys and market hogs, with five plants each, the 75th percentile was set slightly below the 4th of the five baseline results, using the formula: 75th percentile = (.25 * 3rd place values) + (.75 * 4th place values).

Participating plants must meet these tighter performance standards for food safety and non-food safety concerns. Plants are expected to revise their HACCP systems to achieve the food safety standards and to develop process control plans to achieve OCP standards. Plants are responsible for identifying and removing carcasses that do not meet these standards for reprocessing or condemnation, as appropriate. FSIS inspectors are responsible for inspection and for verifying that plants are continuously achieving the required outcomes.

Microbial sampling was also conducted by the independent contractor: 600 carcasses were sampled at each plant, 300 for *Salmonella* and 300 for generic *E. coli*. Levels of these organisms are evaluated according to the performance standards and criteria set forth in the Agency's Pathogen Reduction/HACCP Final Rule mentioned above.

FSIS conducts continuous inspection in HIMP plants to make a critical appraisal of carcasses to determine that they are not adulterated as defined under FSIS regulations and are thus eligible to receive the mark of inspection.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to better ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it and provide copies of this **Federal Register** publication in the FSIS Constituent Update. FSIS provides a weekly FSIS Constituent Update, which is communicated via fax to more than 300 organizations and individuals. In addition, the update is available on-line through the FSIS web page located at <http://www.fsis.usda.gov>. The update is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and any other types of information that could affect or would be of interest to Agency constituents or stakeholders. The constituent fax list consists of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. Through these various channels, FSIS is able to provide information to a much broader, more diverse audience.

For more information and to be added to the constituent fax list, fax your request to the Congressional and Public Affairs Office, at 202 720-5704.

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Notice of a Finding Of No Significant Impact (FONSI) for the Stony Creek Watershed, Clinton and Ionia Counties, Michigan

AGENCY: Natural Resources Conservation Service.

ACTION: Notice of a Finding Of No Significant Impact.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR part 1500); and the Natural Resources Conservation Service Regulations (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Stony Creek Watershed, Clinton and Ionia Counties, Michigan.

DATES: Comment will be received until on or before December 4, 2000.

FOR FURTHER INFORMATION CONTACT:

Alan G. Herceg, Assistant State Conservationist, Natural Resources Conservation Service, Michigan State Office, 3001 Coolidge Road, Suite 250, East Lansing, Michigan 48823-6350, telephone 517-324-5282.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Ronald C. Williams, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project purpose is watershed protection. Project measures include the installation of conservation practices by private land users to reduce soil and water resource problems. Accelerated financial and technical assistance will be available for land treatment.

The Notice of a Finding Of No Significant Impact has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Alan G. Herceg.

(This activity is listed in the Catalog of Federal Domestic Assistance under NO. 10.904, Watershed and Flood Prevention, and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials.)

Dated: October 18, 2000.

Ronald C. Williams,

State Conservationist, East Lansing, Michigan.
