FOR FURTHER INFORMATION CONTACT: Mr. Bruce Wadlington, Mid-Pacific Regional Concessions Manager, Central California Area Office, Bureau of Reclamation, 7794 Folsom Dam Road, Folsom, CA 95630; telephone: Folsom (916) 989–7175, Berryessa (707) 966–2111 ext. 108 (TDD (916) 989–7285).

SUPPLEMENTARY INFORMATION:

Background

Lake Berryessa was created as part of the Solano Project with the completion of Monticello Dam in 1957. In 1958, Reclamation and the County of Napa entered into an agreement for the County to assume management responsibilities for the lake. A Public Use Plan (PUP) was developed by the National Park Service in 1959 to guide Reclamation and the County in development of the recreational facilities at the lake. In 1975, Reclamation resumed direct management of Lake Berryessa as a result of Title VI of the Reclamation Development Act of October 27, 1974 (Public Law 93-493), which authorizes Reclamation to provide for the protection, use, and enjoyment of the aesthetic and recreational values at Lake Berryessa. In 1987 a new planning process began to develop an updated management document for the lake. A Reservoir Area Management Plan (RAMP) was developed to provide guidance for Reclamation in management issues which were not mentioned in the PUP and to assist Reclamation in administering the lake and concession areas. Reclamation completed a final EIS for the RAMP in 1993.

Presently there are seven (7) concessionaires authorized by Reclamation to provide commercial support services to visitors to Lake Berryessa. These concession contracts have been in effect since the late 1950's. All the contracts will expire by 2009. Reclamation also administers two dayuse areas and a public launching facility, as well as numerous roadside turnouts and trails. The eastside of the lake has been designated a State Wildlife Area and is managed cooperatively by Reclamation and the California Department of Fish and Game.

Visitor Services Plan

The Visitor Services Plan will identify and develop the requirements, terms, and conditions for new competitive concession contracts that will be developed by the Federal Government. Some of the issues to be addressed in the plan include day-use needs, longterm and short-term recreational vehicle and trailer sites, campground development, marina development, consolidation or expansion of operations, new services development and construction, retention or removal of existing facilities, food and beverage service needs, overnight lodging facilities, and support for marine based activities, *i.e.*, fishing (individual and tournament), swimming, water skiing, etc.

Public Involvement and Planning Schedule

The time frame for completion of this plan is 18 to 24 months. Formal Public Scoping meetings are scheduled to be held in May 2001. The draft EIS is expected to be completed by November 2001. The final EIS is scheduled to be released in March 2002.

Anyone interested in more information concerning the plan, or who has an interest in the future development of Lake Berryessa as related to this planning effort or has suggestions as to significant environmental issues, should contact Mr. Bruce Wadlington as provided above. A web site has been established to provide additional information regarding plan progress and public comment at: http://www.mp.usbr.gov/berryessa.

Dated: October 20, 2000.

Regional Environmental Officer. [FR Doc. 00–28454 Filed 11–06–00; 8:45 am] BILLING CODE 4310–MN–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Notice of Proposed Information Collection

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior. **ACTION:** Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing its intention to request approval for the collection of information for the exemption of coal extraction incidental to the extraction of other minerals at 30 CFR Part 702.

DATES: Comments on the proposed information collection must be received by January 8, 2001, to be assured of consideration.

ADDRESSES: Comments may be mailed to John A. Trelease, Office of Surface

Mining Reclamation and Enforcement, 1951 Constitution Ave., NW, Room 210—SIB, Washington, DC 20240. Comments may also be submitted electronically to jtreleas@smre.gov.

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection request, explanatory information and related forms, contact John A. Trelease, at (202) 208–2783.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implementing provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. This notice identifies an information collection that OSM will be submitting to OMB for extension. This collection is contained in 30 CFR 702, **Exemption for Coal Extraction** Incidental to the Extraction of Other Minerals.

OSM has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on reestimates of burden or respondents. OSM will request a 3-year term of approval for each information collection activity.

Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) the accuracy of the agency's burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information. A summary of the public comments will accompany OSM's submission of the information collection request to OMB.

This notice provides the public with 60 days in which to comment on the following information collection activity:

Title: Exemption for Coal Extraction Incidental to the Extraction of Other Minerals, 30 CFR Part 702.

OMB Control Number: 1029–0089. Summary: This part implements the requirement in Section 701(28) of the Surface Mining Control and Reclamation Act of 1977 (SMCRA), which grants an exemption from the requirements of SMCRA to operators extracting not more than 16½ percentage tonnage of coal incidental to the extraction of other minerals. This information will be used by the regulatory authorities to make that determination.

Bureau Form Number: None. Frequency of Collection: Once and annually thereafter.

Description of Respondents: Producers of coal and other minerals. Total Annual Responses: 61. Total Annual Burden Hours: 513.

Dated: November 2, 2000.

Richard G. Bryson,

Chief, Division of Regulatory Support. [FR Doc. 00–28563 Filed 11–6–00; 8:45 am] BILLING CODE 4310–05–M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Pursuant to the Clean Water Act

In accordance with the Departmental policy, 28 CFR 50.7, notice is hereby given that a proposed Consent Decree in United States of America and the State of Louisiana Department of Environmental Quality v. Acadia Woods Add. #2 Sewer Co., et al., Defendants, and Total Environmental Solutions, Inc., Intervening Defendant, Civil Action No. 6:98-0687, was lodged on October 23, 2000, with the United States District Court for the Western District of Louisiana, Lafayette-Opelousas Division. The Consent Decree addresses relief sought by the United States on behalf of the United States Environmental Protection Agency ("EPA") under the Clean Water Act ("CWA"), 33 U.S.C. 1251, et seq., with respect to numerous, ongoing, violations of the CWA and applicable National Pollutant Discharge Elimination System ("NPDES") permits at more than 170 package sewage treatment plants ("STPs") in Louisiana owned and formerly operated by Johnson Properties, Inc., its numerous subsidiaries and affiliates, Glenn Johnson, and Darren K. Johnson (collectively, the "Original Defendants").

The Consent Decree has been signed by Total Environmental Solutions, Inc., ("TESI"), a wholly-owned subsidiary of South Louisiana Electric Cooperative Association ("SLECA"). TESI is a corporation newly created by SLECA to purchase all of the assets of the corporate Original Defendants, and is not connected with the Original Defendants. On October 25, 2000, TESI filed a motion to intervene as a defendant in the above-captioned action for the purpose of placing the STPs on the compliance schedule set forth in the Consent Decree.

The Original Defendants failed to comply with a 1998 Consent Decree requiring them to bring the STPs into

compliance. In March 1999, the District Court replaced the management of the corporate Original Defendants with a receiver. Also in March 1999, the corporate Original Defendants commenced a proceeding under Chapter 11 of the Bankruptcy Code, entitled In re Johnson Properties, No 99-10437, in the United States Bankruptcy Court for the Middle District of Louisiana. The Bankruptcy Court appointed the receiver as trustee. After a hearing on plan conformation, the Bankruptcy Court concluded that sale of the STPs to a qualified buyer willing to invest in repairs and capital improvements would serve to advance the objective of causing the STPs to comply with the CWA. Under the confirmed plan of reorganization, all of the STPs will be sold to TESI. In the Consent Decree, TESI agrees to a schedule for performing repairs and improvements and for reaching compliance at all of the STPs. If TESI complies with the Consent Decree, it will not be liable for penalties if the STPs exceed permitted effluent limitations during certain defined periods.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, United States Department of Justice, PO Box 7611, Washington, DC 20044, and should refer to *United States* v. *Acadia Woods Add.* #2 Sewer Co., DOJ Ref. No. 90–5–1–1–4375.

The proposed Consent Decree may be examined at the Office of the United States Attorney, 800 Lafayette Street, Lafayette, Louisiana 70501; the Region 6 office of the Environmental Protection Agency, 1445 Ross Avenue, Dallas, Texas 75202. A copy of the proposed Consent Decree may be obtained by mail from the Consent Decree Library, PO Box 7611, Washington, DC 20044. In requesting a copy, refer to the referenced case and enclose a check in the amount of \$13.50 (25 cents per page reproduction costs), payable to the Consent Decree Library.

Walker B. Smith,

Principal Deputy Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

[FR Doc. 00–28538 Filed 11–6–00; 8:45 am] $\tt BILLING$ CODE 4410–15–M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

Pursuant to section 122(d)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. 9622(d)(2), and 28 CFR 50.7, notice is hereby given that a proposed consent decree embodying a settlement in *United States* v. *Akzo Nobel Chemicals, Inc. and CK Video Corporation*, Civil Action No. 00–0908–RV–M, was lodged on October 10, 2000, with the United States District Court for the Southern District of Alabama.

The United States seeks reimbursement of response costs incurred by the United States Environmental Protection Agency ("EPA"), pursuant to section 107 of CERCLA, 42 U.S.C. 9607, in response to releases of hazardous substances at the Stauffer Chem (LeMoyne Plant) Superfund Site (the "Site"), which is located near Mobile, Alabama.

Under the proposed consent decree, the Settling Parties, Akzo Nobel Chemical, Inc. and CK Witco Corporation have agreed to address groundwater and subsurface soil contamination on Site in the area designated by EPA as the Operable Unit #2 ("OU #2"). The remedial action selected from EPA's Record of Decision of OU #2 will be the construction, operation, and maintenance of an in-situ soil flushing system, which will operate in tandum with an existing groundwater treatment system, OU #1. OU #2 will significantly expand the range of groundwater and soil remediation of OU #1 by extending the treated areas of the Site reached by the treatment system and enhancing the capture, acceleration of the migration, and removal of contaminants. Monitoring and reporting of the subsurface soil for cyanide and thiocyanate will continue throughout the affected areas on an annual basis to determine if contaminants are moving into the groundwater in a controlled manner and are affectively being captured and treated by the total groundwater treatment system. The Settling Parties also agree to reimburse the Agency for 100% of past and future response and oversight costs.

The Department will receive, for a period of thirty (30) days from the date of this publication, comments relating to the propose consent decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, U.S.
