SUPPLEMENTARY INFORMATION: The proposal would establish a national wildlife refuge on up to 23,000 acres of wetlands and bottomland hardwoods along the confluence of the Green and Ohio Rivers in Henderson County, Kentucky. The Service is proposing to establish the refuge through a combination of fee title purchases from willing sellers and leases, conservation easements, or cooperative agreements from willing landowners.

The goals of the proposed refuge would be to provide (1) Habitat for migrating and wintering waterfowl, (2) habitat for non-game land birds, (3) habitats for a natural diversity of fish and wildlife, (4) nesting habitat for wood ducks and other locally nesting migratory waterfowl, (5) quality hunting and sportfishing opportunities, and (6) opportunities for environmental education, interpretation, and wildlife-oriented recreation.

SUPPLEMENTARY INFORMATION: In its June 3, 1963 opinion in the case of *Arizona v. California* (373 U.S. 546), the Supreme Court of the United States held that the Congress has directed the Secretary of the Interior (Secretary) to administer a network of useful projects constructed by the Federal Government on the lower Colorado River, and it has entrusted the Secretary with sufficient power to direct, manage, and coordinate their operation. The Court held that this power must be construed to permit the Secretary to allocate and distribute the waters of the mainstream of the Colorado River within the boundaries set down by the Boulder Canyon Project Act (45 Stat. 1057, 43 U.S.C. 617) (BCPA). The Secretary has entered into contracts for the delivery of Colorado River water with entities in Arizona, California, and Nevada in accordance with section 5 of the BCPA. The
