

NATIONAL SCIENCE FOUNDATION**Special Emphasis Panel in Human Resource Development; Notice of Meeting**

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Human Resource Development (#1199).

Date/Time: March 14-15, 2001 from 8:30 a.m. to 5 p.m.

Place: National Science Foundation, Stafford Place II—Conference Center, 4121 Wilson Boulevard, Room 565, Arlington, VA.

Type of Meeting: Closed.

Contact Person: Dr. A. James Hicks, Program Director, Human Resource Development Division, Room 815, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230 Telephone: (703) 292-4668.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate the Louis Stokes Alliances for Minority Participation proposals as part of the selection process for awards.

Reason For Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: March 1, 2001.

Susanne Bolton,

Committee Management.

NATIONAL SCIENCE FOUNDATION**National Science Board; Sunshine Act Meeting**

DATE AND TIME: March 15, 2001: 12 Noon-12:30 p.m.: Closed Session; March 15, 2001: 1 p.m.-2 p.m.: Closed Session; March 15, 2001: 2 p.m.-5 p.m.: Open Session.

PLACE: The National Science Foundation, Room 1235, 4201 Wilson Boulevard, Arlington, VA 22230.

STATUS: Part of this meeting will be closed to the public; Part of this meeting will be open to the public.

MATTERS TO BE CONSIDERED:**Thursday, March 15, 2001**

Closed Session (12 Noon-12:30 p.m.)

—Closed Session Minutes, December 2000

—Personnel

—Vannevar Bush Award

—Alan T. Waterman Award

—NSB Member Proposal

Closed Session (1 p.m.-2 p.m.)

—Awards and Agreements

—FY 2002 and FY 2003 Budgets

Open Session (2 p.m.-5 p.m.)

—Swearing-in, Mark Wrighton

—Open Session Minutes, December 2000

—Closed Session Items for May 2001

—Chairman's Report

—Director's Report

—Polar Programs Recognition

—Report: Allocating Federal Resources for S&T

—Director's Merit Review Report

—Committee Reports

—Other Business

Marta Cehelsky,

Executive Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-331]

Nuclear Management Company, LLC; Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-49, held by Nuclear Management Company, LLC (the licensee), for operation of the Duane Arnold Energy Center (the facility) located in Linn County, Iowa.

By letter dated November 17, 2000, as supplemented February 16, 2001, the licensee proposed an amendment to change the operating license. Specifically, the proposed amendment would change paragraph 2.B(2) of the license to allow refueling activities in accordance with a revised thermal-hydraulic analysis based upon use of advanced core designs employing General Electric-14 fuel, increased fuel burnup, increased cycle length, and increased reload batch size. The revised analysis also corrects several input parameter discrepancies in the existing analysis submitted to the Nuclear Regulatory Commission (NRC) by letter dated October 3, 1997.

The proposed change is related to a proposed increase in power level that is identified in the licensee's letter to the NRC dated September 19, 2000. The proposed increase in power will be addressed in a separate **Federal Register** notice.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

By April 6, 2001, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike

(first floor), Rockville, Maryland 20855-2738, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>). If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to

show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20855-2738, by the above date. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to Al Gutterman, Morgan, Lewis, & Bockius LLP, 1800 M Street, NW., Washington, DC 20036-5869, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

If a request for a hearing is received, the Commission's staff may issue the amendment after it completes its technical review and prior to the completion of any required hearing if it publishes a further notice for public comment of its proposed finding of no significant hazards consideration in accordance with 10 CFR 50.91 and 50.92.

For further details with respect to this action, see the application for amendment dated November 17, 2000, as supplemented by letter dated February 16, 2001, which is available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20855-2738, and accessible

electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 28th day of February 2001.

For the Nuclear Regulatory Commission.

Darl S. Hood,

Senior Project Manager, Section 1, Project Directorate III, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Notice of Intent To Prepare an Environmental Impact Statement for the Mixed Oxide Fuel Fabrication Facility

AGENCY: United States Nuclear Regulatory Commission.

ACTION: Notice of Intent (NOI).

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) announces its intent to prepare an Environmental Impact Statement (EIS) for construction, operation and deactivation of a proposed Mixed Oxide (MOX) Fuel Fabrication Facility (Facility) to be constructed at the Department of Energy's (DOE) Savannah River Site (SRS) in South Carolina. The EIS is being prepared pursuant to the National Environmental Policy Act (NEPA) and will examine the potential environmental impacts of manufacturing MOX fuel from surplus weapons plutonium. The MOX fuel is eventually planned to be used in two existing domestic commercial reactors, thus helping to ensure that plutonium produced for nuclear weapons and declared excess to national security needs is converted to forms that are inaccessible and unattractive for nuclear weapons.

TENTATIVE DATES; FUTURE NOTICES OF OPPORTUNITY FOR HEARINGS: The public scoping process required by NEPA begins with publication of this NOI in the **Federal Register** and continues until May 21, 2001. Written comments submitted by mail should be postmarked by that date to ensure consideration. Comments mailed after that date will be considered to the extent practical. However, this May 21 date, and the proposed meeting dates listed below, are subject to change for the following reasons. The NRC is presently conducting its initial administrative acceptance review of the construction authorization request (CAR) regarding the MOX Facility.
