Hercules Inc., Aqualon Division, Parlin, NJ; Notice of Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on January 16, 2001, in response to a worker petition which was filed by the company on behalf of its workers at Hercules Inc., Aqualon Division, located in Parlin, New Jersey. The affected produce natrosol.

The petitioner has requested that the petition be withdrawn. Consequently further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed in Washington, DC this 21st day of February, 2001.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

Moltech Power Systems, Gainesville, FL; Notice of Revised Determination on Reconsideration

By letter of January 30, 2001, the company requested administrative reconsideration of the Department's denial of eligibility to apply for trade adjustment assistance applicable to workers and former workers of the subject firm.

The initial investigation resulted in a negative determination issued on December 11, 2000, and published in the **Federal Register** on January 11, 2001 (66 FR 2450). The investigation findings showed that sales or production did not decrease during the relevant time period.

New information provided by the company include actual sales, production and import data for fiscal year 2000 (ending September 2000). In the initial petition investigation, data provided by Moltech Power Systems were estimates for fiscal year 2000. The actual data show declines in sales and employment from FY 1999 to FY 2000. Company imports increased in the same time period, both absolutely and as a percentage of company sales.

Workers of the subject firm were covered under a previous certification, TA-W-34,695, which expired August 28, 2000.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with rechargeable batteries contributed importantly to the declines in sales or production and to the total or partial separation of workers of Moltech Power Systems, Gainesville, Florida. In accordance with the provisions of the Act, I make the following certification:

All workers of Moltech Power Systems, Gainesville, Florida, who became totally or partially separated from employment on or after August 29, 2000, through two years from the date of this certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC this 28th day of February, 2001.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

Motorola Ceramic Products, Albuquerque, New Mexico; Notice of Revised Determination on Remand

The United States Court of International Trade (USCIT), on January 17, 2001, granted the Secretary of Labor's motion for voluntary remand for further investigation of the negative determination in *Former Employees of Motorola Ceramic Products v. Herman* (Court Nos. 99-06-00367 and 99-07-00393).

The Department's initial denial of the petition for employees of Motorola Ceramic Products was issued on February 18, 1999 and published in the **Federal Register** on April 6, 1999 (64 FR 16752). The denial was based on the fact that criterion (3) of the Group Eligibility Requirements of Section 222 of the Trade Act of 1974, as amended, was not met. The work was transferred to China and that there were no imports of articles like or directly competitive with those produced by the workers at the subject firm.

On February 28, 1999, the petitioner requested administrative reconsideration of the Department's denial, which also resulted in affirmation of the initial negative decision. The determination was issued on May 24, 1999, and published in the **Federal Register** on June 16, 1999 (64 FR 32275).

On remand, the Department reviewed the previous TAA investigation applicable to workers of the subject firm producing ceramic filters, TA-W-32,889, which expired January 7, 1999. The Department obtained new information regarding the manufacturing process for the RF filters produced by workers of the firm. The investigation on remand revealed that the company increased imports of articles like the RF filters produced at the Albuquerque, New Mexico, plant.

Conclusion

After careful review of the additional facts obtained on remand, I conclude there were increased imports of articles

like or directly competitive with those produced by the subject firm. In accordance with the provisions of the Trade Act, I make the following certification:

All workers of Motorola Ceramic Products, Albuquerque, New Mexico, who became totally or partially separated from employment on or after January 8, 1999, through two years from the issuance of this revised determination, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC this 23rd day of February 2001.

Certifying Officer, Division of Trade Adjustment Assistance.

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Division of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to Section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Division of Trade Adjustment Assistance, at the address shown below, not later than March 26, 2001.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Division of Trade Adjustment Assistance, at the address shown below, not later than March 26, 2001.

The petitions filed in this case are available for inspection at the Office of the Director, Division of Trade Adjustment Assistance, Employment and Training Administration, U.S.
