Submission for OMB Review; Comment Request

The Department of Commerce (DOC) has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of Export Administration (BXA).

Title: License Exception, Humanitarian Donations.

Agency Form Number: None.

OMB Approval Number: 0694-0033.

Type of Request: Extension of a currently approved collection of information.

Burden: 10 hours.

Average Time Per Response: 5 hours per response.

Number of Respondents: 2 respondents.

Needs and Uses: Section 7(g) of the EAA, as amended by the Export Administration Amendments Act of 1985 (Pub. L. 99-64), exempts from foreign policy controls exports of donations to meet basic human needs. Since the re-write of the Export Administration Regulations, an exporter is permitted to ship humanitarian goods identified in Supplement 2 to Part 740, to embargoed destinations using the new License Exception procedures. This regulation reduces the regulatory burden on these exporters by enabling them to make humanitarian donations with only minimal recordkeeping.

Affected Public: Individuals, businesses or other for-profit institutions.

Respondent's Obligation: Required to obtain or retain a benefit.

OMB Desk Officer: David Rostker.

Certain Corrosion-Resistant Carbon Steel Flat Products From Japan: Notice of Final Results of Changed Circumstances Review, and Revocation in Part of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of changed circumstances review, and revocation in part of antidumping duty order.

SUMMARY: On January 23, 2001, the Department of Commerce ("the Department") published a notice of initiation and preliminary results of a changed circumstances review with the intent to revoke, in part, the antidumping duty order on certain corrosion-resistant carbon steel flat products from Japan. See *Certain Corrosion-Resistant Carbon Steel Flat Products From Japan: Notice of Initiation and Preliminary Results of Changed Circumstances Review of the Antidumping Order and Intent to Revoke Order in Part* ("Initiation and Preliminary Results"), 66 FR 7463 (January 23, 2001). In our *Initiation and Preliminary Results*, we gave interested parties an opportunity to comment; however, we did not receive any comments. Therefore, we are now revoking this order in part, with respect

to the particular carbon steel flat products described below, based on the fact that domestic parties have expressed no interest in the continuation of the order with respect to these particular carbon steel flat products.

EFFECTIVE DATE: March 15, 2001.

SUPPLEMENTARY INFORMATION:

Background

On December 1, 2000, Taiho Corporation of America ("Taiho America") requested that the Department revoke in part the antidumping duty order on certain corrosion-resistant carbon steel flat products from Japan. Specifically, Taiho America requested that the Department revoke the order with respect to imports meeting the following specifications: (1) Carbon steel flat products measuring 0.975 millimeters in thickness and 8.8 millimeters in width consisting of carbon steel coil (SAE 1012) clad with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%-11% tin, 9%-11% lead, maximum 1% other materials and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 13%-17% carbon, 13%-17% aromatic polyester, with a balance (approx. 66%-74%) of polytetrafluorethylene ("PTFE"); and (2) carbon steel flat products measuring 1.02 millimeters in thickness and 10.7 millimeters in width consisting of carbon steel coil (SAE 1008) with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%-11% tin, 9%-11% lead, less than 0.35% iron, and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 45%-55%

lead, 3%-5% molybdenum disulfide, with a balance (approx. 40%-52%) of polytetrafluorethylene ("PTFE").

On December 21, 2000, domestic producers of the like product, Bethlehem Steel Corporation; Ispat Inland Steel; LTV Steel Company, Inc.; National Steel Corporation; and U.S. Steel Group, a unit of USX Corporation, stated that they have no interest in the importation or sale of steel from Japan with these specialized characteristics. As noted above, we gave interested parties an opportunity to comment on the *Initiation and Preliminary Results*. We received no comments from interested parties.

Scope of Changed Circumstances Review

The merchandise covered by this changed circumstances review is certain corrosion-resistant carbon steel flat products from Japan. This changed circumstances administrative review covers all manufacturers/exporters of carbon steel flat products meeting the following specifications: (1) Carbon steel flat products measuring 0.975 millimeters in thickness and 8.8 millimeters in width consisting of carbon steel coil (SAE 1012) clad with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%-11% tin, 9%-11% lead, maximum 1% other materials and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 13%-17% carbon, 13%-17% aromatic polyester, with a balance (approx. 66%-74%) of polytetrafluorethylene ("PTFE"); and (2) carbon steel flat products measuring 1.02 millimeters in thickness and 10.7 millimeters in width consisting of carbon steel coil (SAE 1008) with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%-11% tin, 9%-11% lead, less than 0.35% iron, and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 45%-55% lead, 3%-5% molybdenum disulfide, with a balance (approx. 40%-52%) of polytetrafluorethylene ("PTFE").

Final Results of Review; Partial Revocation of Antidumping Duty Order

The affirmative statement of no interest by petitioners concerning carbon steel flat products, as described herein, constitutes changed circumstances sufficient to warrant partial revocation of this order. Also, no party commented on the *Initiation and Preliminary Results*. Therefore, the Department is partially revoking the
