

## Priority

### *Invitational Priority*

The Secretary is particularly interested in applications that meet the following invitational priority. However, an application that meets this invitational priority does not receive competitive or absolute preference over other applications (34 CFR 75.105(c)(1)).

*Invitational Priority:* Projects that support consortia of institutions of higher education that promote institutional cooperation and student mobility among the United States, Canada, and Mexico.

### Methods for Applying Selection Criteria

The Secretary gives equal weight to the listed criteria. Within each of the criteria, the Secretary gives equal weight to each of the factors.

### *Selection Criteria*

In evaluating applications for grants under this program competition, the Secretary uses selection criteria chosen from those listed in 34 CFR 75.210 of EDGAR.

*For Applications or Information Contact:* Fund for the Improvement of Postsecondary Education (FIPSE), U.S. Department of Education, 1990 K Street, NW., 8th Floor, Washington, DC 20006-8544. You may also request application forms by calling 732-544-2504 (fax on demand), or application guidelines by calling 202-358-3041 (voice mail) or submitting the name of the competition and your name and postal address to FIPSE@ED.GOV (e-mail).

Applications are also listed on the FIPSE Web Site: <http://www.ed.gov/FIPSE>; e-APPLICATIONS are available at: <http://e-grants.ed.gov>.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339. For additional program information call the FIPSE office (202-502-7500) between the hours of 8 a.m. and 5 p.m., Eastern time, Monday through Friday.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact number listed under For Applications or Information Contact.

Individuals with disabilities also may obtain a copy of the application package in an alternative format by contacting that number. However, the Department is not able to reproduce in an alternative format the standard forms included in the application package.

## Application Procedures

**Note:** Some of the procedures in these instructions for transmitting electronic applications differ from those in the Education Department General Administrative Regulations (EDGAR) (34 CFR 75.102). Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, these amendments make procedural changes only and do not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), the Secretary has determined that proposed rulemaking is not required.

### *Pilot Project for Electronic Submission of Applications*

The U.S. Department of Education is expanding its pilot project of electronic submission of applications to include certain formula grant programs, as well as additional discretionary grant competitions. The Program for North American Mobility in Higher Education CFDA No. 84.116N is one of the programs included in the pilot project. If you are an applicant under the Program for North American Mobility in Higher Education, you may submit your application to us in either electronic or paper format.

The pilot project involves the use of the Electronic Grant Application System (e-APPLICATION, formerly e-GAPS) portion of the Grant Administration and Payment System (GAPS). We request your participation in this pilot project. We shall continue to evaluate its success and solicit suggestions for improvement.

If you participate in this e-APPLICATION pilot, please note the following:

- Your participation is voluntary.
- You will not receive any additional point value or penalty because you submit a grant application in electronic or paper format.
- You can submit all documents electronically, including the Title Page, (substitutes for the ED Form 424), Budget Summary Form (substitutes for the ED Form 524), and all necessary assurances and certifications.
- Fax a signed copy of the Title Page after following these steps:

1. Print the Title Page from the e-APPLICATION system.
2. Make sure that the institution's Authorizing Representative signs this form.
3. Before faxing this form, submit your electronic application via the e-APPLICATION system. You will receive an automatic acknowledgement, which will include a PR/Award number (an identifying number unique to your application).

4. Place the PR/Award number in the upper right hand corner of the Title Page.

5. Fax the Title Page to the Application Control Center within three working days of submitting your electronic application. We will indicate a fax number in e-APPLICATION at the time of your submission.

- We may request that you give us original signatures on all other forms at a later date.

You may access the electronic grant application for the Program for North American Mobility in Higher Education at: <http://e-grants.ed.gov>.

We have included additional information about the e-APPLICATION pilot project (see Parity Guidelines between Paper and Electronic Applications) in the application package.

### *Electronic Access to This Document*

You may view this document, as well as all other Department of Education documents published in the **Federal Register**, in text or Adobe Portable Document Format (PDF) on the Internet at either of the following sites:

<http://ocfo.ed.gov/fedreg.htm>  
<http://www.ed.gov/news.html>

To use PDF you must have Adobe Acrobat Reader Program which is available free at either of the previous sites. If you have questions about using PDF, call the U.S. Government Printing Office (GPO) toll free at 1-888-293-6498; or in the Washington DC, area at (202) 512-1530.

**Note:** The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>

**Program Authority:** 20 U.S.C. 1138-1138d.

Dated: March 19, 2001.

**Maureen A. McLaughlin,**  
*Deputy Assistant Secretary for Policy,  
 Planning and Innovation, Office of  
 Postsecondary Education.*

BILLING CODE 4001-01-U

## DEPARTMENT OF ENERGY

[FE Docket No. PP-234]

### Application for Presidential Permit; Baja California Power, Inc.

**AGENCY:** Office of Fossil Energy, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Baja California Power, Inc. (BCP) has applied for a Presidential

permit to construct, operate, maintain, and connect a double-circuit electric transmission line across the U.S. border with Mexico.

**DATES:** Comments, protests, or requests to intervene must be submitted on or before April 23, 2001.

**ADDRESSES:** Comments, protests, or requests to intervene should be addressed as follows: Office of Coal & Power Import and Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350.

**FOR FURTHER INFORMATION CONTACT:** Ellen Russell (Program Office) 202-586-9624 or Michael T. Skinker (Program Attorney) 202-586-2793.

**SUPPLEMENTARY INFORMATION:** The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

On February 27, 2001, BCP, a special purpose company and wholly-owned subsidiary of InterGen Aztec Energy V, B.V., and an indirect subsidiary of InterGen N.V., a Dutch limited liability company, filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) for a Presidential permit. BCP proposes to construct a double-circuit 230,000-volt (230-kV) across the U.S.-Mexico international border.

The BCP transmission line project will originate at a proposed powerplant to be owned by an affiliate, Energia de Baja California (EBC), an independent power producer. EBC will own and operate the powerplant adjacent to a larger, 750-megawatt (MW) powerplant being constructed by Energia Azteca X (EAX) (also an independent power producer and InterGen affiliate). The EBC and EAX powerplants are to be constructed approximately 10 miles west of the City of Mexicali, Baja California, Mexico. The proposed transmission line would head north from the associated Energia de Baja California powerplant switchyard and cross the Mexico/U.S. border west of Calexico, California, and continue to the SDG&E Imperial Valley Substation by paralleling, to the east, the existing SDG&E Imperial Valley to La Rosita transmission line. The length of the proposed transmission line would be approximately 6 miles in Mexico and an additional 5.4 miles in California. Initially, BCP proposes to install only one set of conductors, thus creating a

single electrical circuit. At a later date, the second set of conductors (second electrical circuit) could be added and the transmission facilities could also transmit electric energy generated at the EAX facility to the United States. The EBC generation facilities are expected to be placed in service in June 2002. The EAX generation facilities are expected to be placed in service in March 2003.

Since restructuring of the electric power industry began, resulting in the introduction of different types of competitive entities into the marketplace, DOE has consistently expressed its policy that cross-border trade in electric energy should be subject to the same principles of comparable open access and non-discrimination that apply to transmission in interstate commerce. DOE has stated that policy in export authorizations granted to entities requesting authority to export over international transmission facilities. Specifically, DOE expects transmitting utilities owning border facilities to provide access across the border in accordance with the principles of comparable open access and non-discrimination contained in the FPA and articulated in Federal Energy Regulatory Commission Order No. 888 (Promotion Wholesale Competition Through Open Access Non-Discriminatory Transmission Services by Public Utilities; FERC Stats. & Regs. ¶131,036 (1996)), as amended. In furtherance of this policy, on July 27, 1999, (64 FR 40586) DOE initiated a proceeding in which it noticed its intention to condition existing and future Presidential permits, appropriate for third party transmission, on compliance with a requirement to provide non-discriminatory open access transmission service. That proceeding is not yet complete. However, in this docket DOE specifically requests comment on the appropriateness of applying the open access requirement on BCP's proposed facilities.

**Procedural Matters:** Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's rules of practice and procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Additional copies of such petitions to intervene or protests also should be filed directly with: Orlando Martinez, Manager, Development, InterGen, Two

Alhambra Plaza, Suite 1100, Coral Gables, Florida 33134-5202.

Before a Presidential permit may be issued or amended, the DOE must determine that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system. In addition, DOE must consider the environmental impacts of the proposed action (i.e., granting the Presidential permit, with any conditions and limitations, or denying the permit) pursuant to NEPA. DOE also must obtain the concurrence of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above. In addition, the application may be reviewed or downloaded from the Fossil Energy Home Page at: <http://www.fe.doe.gov>. Upon reaching the Fossil Energy Home page, select "Electricity" from the options menu, and then "Pending Proceedings."

Issued in Washington, DC, on March 19, 2001.

**Anthony J. Como,**

*Deputy Director, Electric Power Regulation, Office of Coal & Power Systems, Office of Coal & Power Im/Ex, Office of Fossil Energy.*

## DEPARTMENT OF ENERGY

[FE Docket No. PP-235]

### Application for Presidential Permit Sempra Energy Resources

**AGENCY:** Office of Fossil Energy, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Sempra Energy Resources (SER) has applied for a Presidential permit to construct, operate, maintain, and connect a double-circuit electric transmission line across the U.S. border with Mexico.

**DATES:** Comments, protests, or requests to intervene must be submitted on or before April 23, 2001.

**ADDRESSES:** Comments, protests, or requests to intervene should be addressed as follows: Office of Coal & Power Import and Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350.

**FOR FURTHER INFORMATION CONTACT:** Ellen Russell (Program Office) 202-586-9624 or Michael T. Skinker (Program Attorney) 202-586-2793.
