

Mental Health Services (CMHS) intends to continue to conduct a multi-site assessment of its Cooperative Agreement for Mental Health Care Provider Education in HIV/AIDS Program II until the end of the sites' expenditure of Program II funds (anticipated end date of September 2002). The education programs funded under this cooperative agreement are designed to disseminate knowledge of the psychological and neuropsychiatric sequelae of HIV/AIDS to both traditional (e.g., psychiatrists, psychologists, nurses, primary care physicians, medical students, and social workers) and non-traditional (e.g., clergy, and alternative health care workers) first-line providers of mental health services.

The multi-site assessment is designed to assess the effectiveness of particular training curricula, document the

integrity of training delivery formats, and assess the effectiveness of the various training delivery formats. Analyses will assist CMHS in documenting the numbers and types of traditional and non-traditional mental health providers accessing training; the content, nature and types of training participants receive; and the extent to which trainees experience knowledge, skill and attitude gains/changes as a result of training attendance. The multi-site data collection design uses a two-tiered data collection and analytic strategy to collect information on (1) the organization and delivery of training, and (2) the impact of training on participants' knowledge, skills and abilities.

Information about the organization and delivery of training will be collected from trainers and staff who are

funded by these cooperative agreements hence there is no respondent burden. All training participants attending sessions lasting less than 6 hours will be asked to complete a brief feedback form at the end of the training session. Trainees attending sessions lasting 6 hours or longer will be asked to complete brief pre- and post-session feedback questionnaires. A sample of trainees attending sessions lasting 6 hours or longer will also be asked to complete a brief follow-up telephone interview three months after the training session. CMHS has funded seven education sites under the Cooperative Agreement for Mental Health Care Provider Education in HIV/AIDS Program II. The annual burden estimates for this activity are shown below:

BILLING CODE 4162-20-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services notifies Federal agencies of the laboratories currently certified to meet standards of Subpart C

of Mandatory Guidelines for Federal Workplace Drug Testing Programs (59 FR 29916, 29925). A similar notice listing all currently certified laboratories will be published during the first week of each month, and updated to include laboratories which subsequently apply for and complete the certification process. If any listed laboratory's certification is totally suspended or revoked, the laboratory will be omitted from updated lists until such time as it is restored to full certification under the Guidelines.

If any laboratory has withdrawn from the National Laboratory Certification Program during the past month, it will

be listed at the end, and will be omitted from the monthly listing thereafter.

This Notice is also available on the internet at the following website:
<http://www.health.org/workplace>.

FOR FURTHER INFORMATION CONTACT: Mrs. Giselle Hersh or Dr. Walter Vogl, Division of Workplace Programs, 5600 Fishers Lane, Rockwall 2 Building, Room 815, Rockville, Maryland 20857; Tel.: (301) 443-6014, Fax: (301) 443-3031.

Special Note: Please use the above address for all surface mail and correspondence. For all overnight mail service use the following address: Division of Workplace Programs, 5515 Security Lane, Room 815, Rockville, Maryland 20852.

SUPPLEMENTARY INFORMATION:

Mandatory Guidelines for Federal Workplace Drug Testing were developed in accordance with Executive Order 12564 and section 503 of Public Law 100-71. Subpart C of the Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards which laboratories must meet in order to conduct urine drug testing for Federal agencies. To become certified an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification a laboratory must participate in a quarterly performance testing program plus periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements expressed in the HHS Guidelines. A laboratory must have its letter of certification from SAMHSA, HHS (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with Subpart C of the Guidelines, the following laboratories meet the minimum standards set forth in the Guidelines:

* The Standards Council of Canada (SCC)
 voted to end its Laboratory Accreditation
 Program for Substance Abuse (LAPSA)
 effective May 12, 1998. Laboratories certified
 through that program were accredited to
 conduct forensic urine drug testing as
 required by U.S. Department of
 Transportation (DOT) regulations. As of that
 date, the certification of those accredited
 Canadian laboratories will continue under
 DOT authority. The responsibility for
 conducting quarterly performance testing
 plus periodic on-site inspections of those
 LAPSA-accredited laboratories was
 transferred to the U.S. DHHS, with the
 DHHS' National Laboratory Certification
 Program (NLCP) contractor continuing to
 have an active role in the performance testing
 and laboratory inspection processes. Other
 Canadian laboratories wishing to be
 considered for the NLCP may apply directly
 to the NLCP contractor just as U.S.
 laboratories do.

Upon finding a Canadian laboratory to be
 qualified, the DHHS will recommend that
 DOT certify the laboratory (**Federal Register**,
 16 July 1996) as meeting the minimum
 standards of the "Mandatory Guidelines for
 Workplace Drug Testing" (59 **Federal
 Register**, 9 June 1994, Pages 29908-29931).
 After receiving the DOT certification, the
 laboratory will be included in the monthly
 list of DHHS certified laboratories and
 participate in the NLCP certification
 maintenance program.
