

and cadastral survey activities. Proposed for permanent retention are recordkeeping copies of cadastral survey records, including case files documenting original and supplemental group and mineral surveys, survey field notes and plats, and segregation and protraction diagrams.

11. Department of State, President's Interagency Council on Women (N1-59-01-6, 11 items, 9 temporary items). Materials used at public briefings, periodic management reports, contact files, and extra copies of publications. Electronic copies of documents created using electronic mail and word processing are also included. Proposed for permanent retention are recordkeeping copies of records documenting major events and meetings as well as a record set of the Council's publications.

12. Department of the Treasury, Treasury Inspector General for Tax Administration (N1-56-01-6, 22 items, 18 temporary items). Budget files, officer safety certifications, monthly performance reports, project files, correspondence, computer programming manuals, business reports, reading files, and operational review reports. Also included are reference copies of other offices' performance plans, Treasury strategic plans, and Treasury orders as well as electronic copies of documents created using electronic mail and word processing. Recordkeeping copies of semi-annual reports to Congress, directives, historical files, and operational manuals are proposed for permanent retention.

13. Department of the Treasury, Treasury Inspector General for Tax Administration (N1-56-01-8, 8 items, 5 temporary items). Chief Counsel records, including legal opinions, files relating to legislation, and litigation case files. Also included are electronic copies of documents created using electronic mail and word processing. Regulations and historically significant legal opinions and litigation case files are proposed for permanent retention.

14. Federal Emergency Management Agency, Response and Recovery Directorate (N1-311-00-1, 3 items, 3 temporary items). Records relating to customer service surveys. Included are surveys completed by applicants for agency assistance, a survey results database, and statistical and analytical reports.

Dated: April 4, 2001.

## **NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES**

### **National Endowment for the Arts; Federal Advisory Committee on International Exhibitions (FACIE)**

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), as amended, notice is hereby given that a meeting of the Federal Advisory Committee on International Exhibitions (FACIE) will be held by teleconference from 3:30 to 5 p.m. on Wednesday April 25, 2001 in Room 704 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendations on financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency. In accordance with the determination of the Chairman of May 12, 2000, these sessions will be closed to the public pursuant to subsection (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Ms. Kathy Plowitz-Worden, Panel Coordinator, National Endowment for the Arts, Washington, DC 20506, or call 202/682-5691.

Dated: April 6, 2001.

## **NUCLEAR REGULATORY COMMISSION**

**[Docket No. 72-20]**

### **Notice of Issuance of Amendment to Materials License SNM-2508; Department of Energy TMI-2 Independent Spent Fuel Storage Installation**

The U.S. Nuclear Regulatory Commission (NRC or the Commission) has issued Amendment 1 to Materials License No. SNM-2508 held by the U.S. Department of Energy (DOE) for the receipt, possession, storage and transfer of spent fuel in an independent spent fuel storage installation (ISFSI) located at the Idaho National Engineering and Environmental Laboratory (INEEL), within the Idaho Nuclear Technology and Engineering Center (INTEC) site in

Scoville, Idaho. The amendment is effective as of the date of issuance.

By application dated March 26, 2001, DOE requested an amendment to its ISFSI license to correctly reflect the number of fuel and filter canisters that could be stored at the ISFSI. The correct number that can be stored is 267 (rather than 265) fuel, and 62 (rather than 67) filter, canisters.

This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that, pursuant to 10 CFR 51.22(c)(11), an environmental assessment need not be prepared in connection with issuance of the amendment.

Documents related to this action are available for public inspection at the Commission's Public Document Room located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852-2738, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 4th day of April 2001.

For the Nuclear Regulatory Commission.

**BILLING CODE 7590-01-P**

## **NUCLEAR REGULATORY COMMISSION**

**[Docket No. 50-293]**

### **Entergy Nuclear Generation Company Pilgrim Nuclear Power Station; Environmental Assessment and Finding of No Significant Impact**

The U.S. Nuclear Regulatory Commission (NRC) is considering

issuance of an exemption from certain requirements of appendix G to part 50 of Title 10 of the Code of Federal Regulations (10 CFR part 50) for Facility Operating License No. DPR-35, issued to Entergy Nuclear Generation Company, (the licensee), for operation of the Pilgrim Nuclear Power Station (Pilgrim), located in Plymouth, Massachusetts.

### Environmental Assessment

#### Identification of the Proposed Action

The proposed action would exempt the licensee from certain requirements of Appendix G to 10 CFR Part 50 to allow the application of the methodology approved for determining the pressure-temperature (P-T) limit curves in the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code), Section XI, Code Case N-640 entitled, "Alternate Reference Fracture Toughness for Development of P-T Curves for ASME Section XI, Division I."

The proposed action is in accordance with the licensee's application for an exemption dated January 19, 2001, as supplemented by letter dated February 8, 2001.

#### The Need for the Proposed Action

The licensee would like to revise the currently approved methodology for P-T limit calculations to incorporate the methodology approved for use in Code Case N-640. Code Case N-640 allows the use of  $K_{IC}$  fracture toughness curve instead of  $K_{Ia}$  fracture toughness curve, as required by Appendix G to Section XI, for determining P-T limits for reactor pressure vessel (RPV) materials. The exemption is needed because the methodology in Code Case N-640 is less conservative in determining P-T limits than the approved methodology in Appendix G of Section XI. The proposed action also supports the licensee's application for a license amendment, dated November 22, 2000, as supplemented on January 30 and February 2, 2001, to revise the Technical Specifications (TSs) P-T limits for the remainder of operating cycles 13 and 14.

In the associated exemption, the staff has determined that, pursuant to 10 CFR 50.12(a)(2)(ii), the underlying purpose of the regulation will continue to be served by the implementation of the code case.

#### Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes

that the exemption described above would provide an adequate margin of safety against brittle failure of the RPV at Pilgrim.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not involve any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

#### Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

#### Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Pilgrim Nuclear Power Station dated May 1972.

#### Agencies and Persons Consulted

In accordance with its stated policy, on March 14, 2001, the staff consulted with the Massachusetts State official, James Muckerheide of the Massachusetts Emergency Management Agency, regarding the environmental impact of the proposed action. The State official had no comments.

#### Finding of no Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated January 19, 2001, as

supplemented by letter dated February 8, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

Dated at Rockville, Maryland, this 6th day of April 2001.

For the Nuclear Regulatory Commission.

### OFFICE OF PERSONNEL MANAGEMENT

#### Proposed Collection; Comment Request for Extension of a Currently Approved Information Collection: Standard Form 2808

**AGENCY:** Office of Personnel Management.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for extension of a currently approved information collection. SF 2808, Designation of Beneficiary: Civil Service Retirement System (CSRS), is used by persons covered by CSRS to designate a beneficiary to receive the lump sum payment due from the Civil Service Retirement and Disability Fund in the event of their death.

Comments are particularly invited on: whether this information is necessary for the proper performance of functions of OPM, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Approximately 2,000 SF 2808 forms will be completed annually. We estimate it takes approximately 15 minutes to complete the form. The
