SUPPLEMENTARY INFORMATION:

I. Background

Under the Medicare program, eligible beneficiaries may receive covered services in a critical access hospital (CAH) provided the hospital meets certain requirements. Sections 1820(c)(2)(B) and 1861(mm) of the Social Security Act (the Act) establish distinct criteria for facilities seeking designation as a CAH. Under this authority, the Secretary has set forth in regulations minimum requirements that a CAH must meet to participate in Medicare. The regulations at 42 CFR part 485, subpart F (Conditions of Participation: Critical Access Hospitals (CAHs)) determine the basis and scope of covered services provided by a CAH, set out rural health network specifications and establish staff qualifications. Conditions for Medicare payment for critical access services can be found at § 413.70. Applicable regulations concerning provider agreements are at 42 CFR part 489 (Provider Agreements and Supplier Approval) and those pertaining to the survey and certification of facilities are at 42 CFR part 488, (Survey,

Certification and Enforcement Procedures), subparts A General Provisions and B Special Requirements.

In order for a CAH to be approved for participation in or coverage under the Medicare program, the hospital must have a current provider agreement to participate in the Medicare program as a hospital at the time the hospital applies for CAH designation and be in compliance with part 482 (Conditions of Participation for Hospitals), as well as part 485, subpart F (Conditions of Participation: Critical Access Hospitals (CAHs)). Generally, in order to enter into a provider agreement, a hospital must first be certified by a State survey agency as complying with the conditions or standards set forth in the statute and part 482 of our regulations. Then, the hospital is subject to regular surveys by a State survey agency to determine whether it continues to meet Medicare requirements. There is an alternative, however, to surveys by State agencies. Exceptions are provided in the Balanced Budget Refinement Act of 1999 (Pub. L. 106-113) for rural health clinics that were previously downsized from an acute care hospital, or for a closed hospital that is requesting to reopen as a CAH. In these instances, only the provisions of 42 CFR part 485, subpart F apply.

Section 1865(b)(1) of the Act permits "accredited" hospitals to be exempt from routine surveys by State survey agencies to determine compliance with Medicare conditions of participation. Accreditation by an accreditation organization is voluntary and is not required for Medicare participation. Section 1865(b)(1) of the Act provides that, if a provider demonstrates through accreditation that all applicable Medicare conditions are met or exceeded, we can "deem" the hospital as having met the requirements. If an accrediting organization is recognized in this manner, any provider accredited by a national accrediting body approved program would be deemed to meet the Medicare conditions of coverage. To date, no organizations have been recognized with deeming authority for critical access hospitals.

A national accreditation organization applying for approval of deeming authority under part 488, subpart A must provide us with reasonable assurance that the accreditation organization requires the accredited providers to meet requirements that are at least as stringent as the Medicare conditions of participation.

II. Approval of Deeming Organizations

Section 1865(b)(2) of the Act requires that our findings concerning review of
