

engineering and cost analyses because the results showed that the two blowing agent alternatives can be used to achieve similar performance for similar costs to HFC-245fa. DOE estimates are reasonable and address the concern of the Department of Justice to provide more than one choice of insulation blowing agent with comparable performance and at approximately the same cost.

Based on the analysis of the three different types of blowing agents, HFC-245fa-, pentane/cyclopentane- and HFC-134a, DOE concluded that water heater manufacturers will have several choices to reach the standard, including blends of these blowing agents, and therefore, will not have to rely on a sole source supplier.

#### V. Conclusion

After careful consideration of the GAMA and AGA petitions for reconsideration before the Secretary of Energy, a review of the letter from the coalition of energy advocacy organizations, and a detailed review of the record that supports this final rule, DOE hereby denies the petitions for reconsideration and concludes that no further action is warranted.

## FEDERAL RESERVE SYSTEM

### 12 CFR Part 261a

[Docket No. R-1102]

#### Rules Regarding Access to Personal Information Under the Privacy Act

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Final rule.

**SUMMARY:** In accordance with the Privacy Act, the Board of Governors of the Federal Reserve System (Board) is amending its Rules Regarding Access to Personal Information under the Privacy Act. Notice of this new system of records, entitled Protective Information System (BGFRS-31) is published in an adjacent notice. This rule also makes a technical correction to an earlier document.

**EFFECTIVE DATE:** May 21, 2001.

**FOR FURTHER INFORMATION CONTACT:** Elaine M. Boutilier, Managing Senior Counsel, Legal Division (202/452-2418), Board of Governors of the Federal Reserve System, 20th and Constitution, NW., Washington, DC 20551.

**SUPPLEMENTARY INFORMATION:** The Board's Protective Services Unit (PSU) was established to provide security for the Chairman and other members of the Board of Governors. To facilitate security procedures, the PSU intends to implement a software program that was developed for law enforcement entities to monitor activities of individuals under investigation. The PSU plans to use this system to monitor the correspondence and/or activities of individuals that are perceived to present a possible threat to the safety of Board members. Inclusion of individuals in this system will result primarily from correspondence received from such individuals that is perceived to be threatening to members of the Board. Information may also be received from law enforcement agencies that have information regarding a potential threat to members of the Board. The software that is being acquired for this system will allow the PSU to sort files by a variety of subjects, including such things as names, aliases, addresses, zip codes, etc. This will permit the PSU to obtain a better understanding of the threat, if any, that is presented by an individual or group of individuals. Because this information consists of investigatory material that is compiled for the law enforcement purpose of protecting members of the federal government, it is exempt from certain provisions of the Privacy Act, including
