POLICY JUSTIFICATION

Republic of Korea - Cooperative Logistics Supply Support Agreement

The Republic of Korea has requested a possible sale of spare parts under a Cooperative Logistics Supply Support Agreement (CLSSA) requisition case (FMSO II) for the support of F-4D/E, RF-4C, F-5A/B/E/F, RF-5A, A/T-37, T-38, F-16C/D, and C-130H aircraft; AN/FPS-117 and AN/FRN-45 radar systems; and AIM-7, AIM-9 and AIM-120 missile components. These items are of U.S. origin and are being operated by the Republic of Korea. The estimated cost is \$500 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Northeast Asia.

The Republic of Korea needs these additional spare parts to maintain the aircraft, radar, and missile systems previously procured from the United States in a mission capable status.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

Procurement of these items of support will be from the many contractors providing similar items to the U.S. armed forces. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Republic of Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The Honorable J. Dennis Hastert Speaker of the House of Representatives Washington, D.C. 20515-6501

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 01-08 and under separate cover the classified offset certificate thereto. This Transmittal concerns the Department of the Navy's proposed Letter(s) of Offer and Acceptance (LOA) to the Republic of Korea for defense articles and services estimated to cost \$98 million. Soon after this letter is delivered to your office, we plan to notify the news media of the unclassified portion of this Transmittal.

Reporting of Offset Agreements in accordance with Section 36(b)(1)(C) of the Arms Export Control Act (AECA), as amended, requires a description of any offset agreement with respect to this proposed sale. Section 36(b)(1)(g) of the AECA, as amended, provides that reported information related to offset agreements be treated as confidential information in accordance with section 12(c) of the Export Administration Act of 1979 (50 U.S.C. App. 2411(c)). Information about offsets for this proposed sale are described in the enclosed confidential attachment.

Sincerely,

TOME H. WALTERS, JR. USAF DIRECTOR

POLICY JUSTIFICATION

Republic of Korea - MK 41 Vertical Launch Systems

The Republic of Korea Government has requested the possible sale of three MK 41 Vertical Launch Systems, U.S. Government and contractor engineering and logistics personnel services, personnel training and training equipment, support and test equipment, spare and repair parts, publications and technical documentation, launch system software development and maintenance and other related elements of logistics support. The estimated cost is \$98 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in Northeast Asia.

The missile launchers will be installed on new construction destroyers and are intended for use with STANDARD missiles as the principal air defense armament of these new vessels. Korea will have no difficulty absorbing these additional missile launch systems into its armed forces.

The proposed sale of this shipboard missile launch systems and support will not affect the basic military balance in the region.

The principal contractors will be Lockheed Martin Marine Systems of Middle River, Maryland and United Defense Limited Partnership of Minneapolis, Minnesota. One or more proposed offset agreements might be related to this proposed sale.

Implementation of this proposed sale will require the assignment of three U.S. Government and six contractor representatives in Korea for approximately 39 months during the preparation, equipment installations, and equipment test and checkout of the MK 41 Vertical Launch Systems on the ships.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 01-08

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vi

(vi) Sensitivity of Technology:

- 1. The MK-41 Vertical Launch Systems (VLS) contains sensitive technology and is Unclassified. The Launch Control Computer Program (LCCP), which also contains missile launch rates, is classified Confidential. The LCCP provides the control and processing to interface the Weapon Control System with the VLS. Sections of the MK-41 technical documentation, which disclose launcher vulnerabilities, are classified Confidential.
- 2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
- 3. A determination has been made that Korea can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense. **ACTION:** Notice of Advisory Committee Meetings.

SUMMARY: The Defense Science Board (DSB) Task Force on Chemical Warfare Defense will meet in closed session on May 31, 2001, and June 1, 2001, at SAIC, Inc., 4001 N. Fairfax Drive, Arlington, VA 22201. The Task Force will assess the possibility of controlling the risk and consequences of a chemical warfare (CW) attack to acceptable national security levels within the next five years.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Task Force will assess current national security and military

objectives with respect to CW attacks; CW threats that significantly challenge these objectives today and in the future; the basis elements (R&D, materiel, acquisition, personnel, training, leadership) required to control risk and consequences to acceptable levels, including counter-proliferation; intelligence, warning, disruption; tactical detection and protection (active and passive); consequence management; attribution and deterrence; and policy. The Task Force will also assess the testing and evaluation necessary to demonstrate and maintain the required capability and any significant impediments to accomplishing this goal.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Pub. L. 92–463, as amended (5 U.S.C. App. II), it has been determined that this Defense Science Board meeting concerns matters listed in 5 U.S.C. 552b(c)(1), and that accordingly this meeting will be closed to the public.

Dated: May 4, 2001.
