

CP1) under 21 CFR 10.30 to FDA. The petition requested that the agency determine whether metformin HCl tablets, 625- and 750-mg were withdrawn from sale for reasons of safety or effectiveness.

FDA has reviewed its records and, under § 314.161, has determined that Bristol-Myers Squibb's decision not to market metformin HCl 625- and 750-mg tablets was not due to concerns about safety or effectiveness of the product. Accordingly, the agency will maintain metformin HCl 625- and 750-mg tablets in the "Discontinued Drug Product List" section of the Orange Book.

The "Discontinued Drug Product List" delineates, among other items, drug products that have been discontinued from marketing for reasons other than safety or effectiveness. ANDAs that refer to metformin HCl 625- and 750-mg tablets may be approved by the agency.

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; reopening of comment period.

SUMMARY: The Food and Drug Administration (FDA) is reopening until July 18, 2001, the comment period on its draft risk assessment on the relationship between *Vibrio parahaemolyticus* in raw molluscan shellfish and human health (66 FR 5517, January 19, 2001). SUPPLEMENTARY INFORMATION: In the **Federal Register** of January 19, 2001 (66 FR 5517), FDA announced the availability of a draft risk assessment on the relationship between *Vibrio parahaemolyticus* in raw molluscan shellfish and human health. Comments were sought on the technical aspects of the draft risk assessment in the following areas: (1) The assumptions made, (2) the modeling technique, (3) the data used, and (4) the transparency of the draft risk assessment document. Interested persons were given until March 20, 2001, to comment on the draft risk assessment. In the **Federal Register** of March 6, 2001, FDA extended the comment period to May 21, 2001 (66 FR 13546), because a public meeting to receive comments on the document was scheduled for March 20, 2001 (March 6, 2001, 66 FR 13544), the same day the comment period closed. The extended comment period closed on May 21, 2001. FDA, in response to the NFI request, is

reopening the comment period until July 18, 2001. The agency does not anticipate further extensions of the comment period for this draft risk assessment.
