### National Oceanic and Atmospheric Administration

#### 50 CFR Part 622

[I.D. 062901C]

#### Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Shrimp Fishery of the Gulf of Mexico; Texas Closure

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Adjustment of the ending date of the Texas closure.

**SUMMARY:** NMFS announces an adjustment to the ending date of the annual closure of the shrimp fishery in the exclusive economic zone (EEZ) off Texas. The Texas closure is intended to prohibit the harvest of brown shrimp during their major emigration from Texas estuaries to the Gulf of Mexico so the shrimp may reach a larger, more valuable size and to prevent the waste of brown shrimp that would be discarded in fishing operations because of their small size.

**DATES:** The EEZ off Texas is open to trawl fishing from 30 minutes after sunset, July 8, 2001, until 30 minutes after sunset, May 15, 2002, or until NMFS publishes further notice in the *Federal Register*.

**FOR FURTHER INFORMATION CONTACT:** Dr. Steve Branstetter, 727-570-5305; fax: 727-570-5583; e-mail: Steve.Branstetter@noaa.gov.

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico shrimp fishery is managed under the Fishery Management Plan for the Shrimp Fishery of the Gulf of Mexico (FMP). The FMP was prepared by the Gulf of Mexico Fishery Management Council and is implemented by regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. The EEZ off Texas is normally closed to all trawling each year from 30 minutes after

sunset on May 15 to 30 minutes after sunset on July 15. The regulations at 50 CFR 622.34(h) describe the area of the Texas closure and provide for adjustments to the beginning and ending dates by the Regional Administrator, Southeast Region, NMFS, under procedures and restrictions specified in the FMP.

The beginning and ending dates of the Texas closure are based on biological sampling by Texas Parks and Wildlife Department (TPWD). The closure date is established based on projected times that brown shrimp in Texas bays and estuaries will reach a mean size of 90 mm, and begin strong emigrations out of the bays and estuaries during maximum duration ebb tides. The waters off of Texas are re-opened to shrimping when projections indicate that brown shrimp will reach a mean size of 112 mm, in concurrence with maximum duration ebb tides. Biological data collected by TPDW indicate that the criteria to end the Texas closure will be met on July 8, 2001. Accordingly, the time and date for ending the Texas closure is changed from 30 minutes after sunset on July 15, 2001, to 30 minutes after sunset on July 8, 2001.

#### Classification

This action is authorized by 50 CFR 622.34(h)(2) and is exempt from review under Executive Order 12866.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: July 3, 2001.

**Richard W. Surdi,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Services.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 679

[Docket No. 01012013-1013-01; I.D. 070301A]

#### Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Western Regulatory Area of the Gulf of Alaska

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is prohibiting directed fishing for Pacific ocean perch in the Western Regulatory Area of the Gulf of

Alaska (GOA). This is action is necessary to prevent exceeding the 2001 total allowable catch (TAC) of Pacific ocean perch in this area.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), July 4, 2001, through 2400 hrs, A.l.t., December 31, 2001.

**FOR FURTHER INFORMATION CONTACT:** Mary Furuness, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2001 TAC of Pacific ocean perch for the Western Regulatory Area was established as 1,280 metric tons (mt) by the Final 2001 Harvest Specifications and Associated Management Measures for the Groundfish Fisheries Off Alaska (66 FR 7276, January 22, 2001).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2001 TAC for Pacific ocean perch in the Western Regulatory Area will be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 1,180 mt, and is setting aside the remaining 100 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific ocean perch in the Western Regulatory Area of the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

#### Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to avoid exceeding the 2001 TAC of Pacific ocean perch for the Western Regulatory Area of the GOA constitutes good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20(b)(3)(iii)(A), as such procedures
