

Hampshire and Caledonia and Essex Counties, Vermont.

The license for Project No. 2077 was issued for a period ending July 31, 2001. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year to year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in Section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of Section 15 of the FPA, then, based on Section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to Section 15 of the FPA, notice is hereby given that an annual license for Project No. 2077 is issued to USGen New England, Inc. for a period effective August 1, 2001, through July 31, 2002, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before August 1, 2002, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under Section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to Section 15 of the FPA, notice is hereby given that USGen New England, Inc. is authorized to continue operation of the Fifteen Mile Falls Project No. 2077 until such time as the Commission acts on its application for subsequent license.

18. ARCO, a subsidiary of BP America, Inc. Complainant, v. Calnev Pipe Line LLC, Respondent.

[Docket No. OR01-8-000]

On August 8, 2001, ARCO, a subsidiary of BP America, Inc. (hereinafter referred to as Complainant) filed a complaint alleging that there are reasonable grounds to believe that the rates of Calnev Pipe Line LLC subject to the jurisdiction of the Federal Energy Regulatory Commission are not just and reasonable.

According to Complainant, the overcharges are 22.8 percent in excess of the claimed just and reasonable return claimed by Calnev in its year 2000 interstate cost of service.

Complainant further alleges that the rates are not subject to the threshold "changed circumstances" standard pursuant to the Energy Policy Act of 1992.

Complainant alleges that it is aggrieved and damaged by the unlawful acts of Calnev Pipe Line LLC and seeks relief in the form of reduced rates in the future and reparations for past and current overcharges for transportation and terminalling, with interest.

Comment date: August 21, 2001, in accordance with Standard Paragraph E at the end of this notice. Answers to the complaint shall also be due on or before August 21, 2001.

Standard Paragraph

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be

viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

[Docket No. CP01-49-000]

Northwest Pipeline Corporation; Notice of Availability of the Environmental Assessment for the Proposed Everett Delta Lateral Project

August 10, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Northwest Pipeline Corporation (Northwest) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed gas pipeline and aboveground facilities including:

- About 9.0 mile of a 20-inch-diameter pipeline in Snohomish County, Washington, which would tie in with Northwest's existing mainline and mainline loop north of the City of Lake Stevens; the lateral would extend from the interconnect with Northwest's existing system to Northwest Power Company's (NPC) power plant in Everett, Washington;
- Two meter stations at a joint meter station site at the end of the pipeline for deliveries to NPC and for deliveries to Puget Sound Energy (PSE); and
- Other aboveground facilities include two 12-inch-diameter mainline taps, a pig launcher, one 20-inch-diameter block valve assembly, a liquids separator; and a pig receiver.
