

requirements. Redesignation to attainment is an action that affects the legal designation of a geographical area and does not impose any regulatory requirements. Therefore, because the redesignation to attainment does not create any new requirements, I certify that the proposed approval of the redesignation request will not have a significant economic impact on a substantial number of small entities.

(g) Unfunded Mandates

Under section 202 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated costs to State, local, or tribal governments in the aggregate; or to the private sector, of \$100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the proposed approval does not include a Federal mandate that may result in estimated costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action proposes approval of pre-existing requirements under State or local law and of the State's redesignation request, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Reporting and recordkeeping requirements.

40 CFR Part 81

Air pollution control, National parks, Wilderness areas.

Dated: August 15, 2001.

Idaho: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Idaho has applied to EPA for final authorization of changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant final authorization to Idaho. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we get written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date established in the final rule, and we will not take further action on this proposal. If we get comments that oppose this action, we will withdraw the immediate final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

DATES: Send your written comments by September 21, 2001.

ADDRESSES: Send written comments to Jeff Hunt, U.S. EPA, Region 10, 1200 Sixth Avenue, Mail stop WCM-122, Seattle, WA 98101, phone (206) 553-0256. You can examine copies of the materials submitted by Idaho during normal business hours at the following locations: EPA Region 10 Library, 1200 Sixth Avenue, Seattle, WA, 98101, phone (206) 553-1289; or Idaho Department of Environmental Quality, 1410 N. Hilton, Boise, Idaho 83706, phone (208) 373-0502.

FOR FURTHER INFORMATION CONTACT: Jeff Hunt at (206) 553-0256 and at address listed above.

SUPPLEMENTARY INFORMATION: For additional information, please see the immediate final rule published in the "Rules and Regulations" section of this **Federal Register**.

Dated: August 1, 2001.

Charles E. Findley,

Acting Regional Administrator, Region 10.

Report on the Corrosion of Certain Alloys; Community Right-to-Know Toxic Chemical Release Reporting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability; request for comments.

SUMMARY: EPA is announcing the availability of a document titled "Report on the Corrosion of Certain Alloys" ("Alloys Report"). The Alloy Report contains information on the corrosion of stainless steel, brass, and bronze alloys and the availability of chromium, nickel, and copper from these alloys. Chromium, nickel, and copper contained in stainless steel, brass, and bronze alloys are listed toxic chemicals under section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA), and therefore may be reportable pursuant to EPCRA section 313 and section 6607 of the Pollution Prevention Act of 1990 (PPA). EPA is requesting comments on the technical contents of this document and its conclusions. Depending upon the comments received, EPA may propose to delist chromium, nickel, and copper when contained in some or all physical forms of stainless steel, brass and bronze alloys from the EPCRA section 313 list of toxic chemicals.

DATES: Written comments, identified by the docket control number OEI-100006, must be received by EPA on or before December 20, 2001.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Daniel R. Bushman, Petitions Coordinator, (202) 260-3882, e-mail: bushman.daniel@epa.gov, for specific information on this document, or for more information on EPCRA section 313, the Emergency Planning and
