

potentially less than 10 to 15 minutes to apply for jobs on-line.

There is no financial burden on the applicant, in fact this should relieve much of the burden the current paper-intensive process puts on applicants.

Respondents

Individuals. Approximately 4800 applicants apply for NSF vacancies a year. This number could potentially double based on evidence from other agencies that use electronic recruitment systems; the estimated number of responses is 6500.

Estimated Number of Responses

Approximately 25 responses per job opening.

Estimated Total Annual Burden on Respondents

Approximately 45 minutes per respondent total time is all that will be needed to complete the on-line application, for a total of 4,875 hours annually.

Frequency of Responses

Applicants need only complete the resume one time, and they may use that resume to apply as often as they wish for any NSF job opening.

Comments

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
