

government agencies. Most hospitals and most other providers and suppliers are small entities, either by nonprofit status or by having revenues of \$7.5 million or less annually. For purposes of the RFA, most managed care organizations are not considered to be small entities. Individuals and States are not included in the definition of a small entity.

In addition, section 1102(b) of the Act requires us to prepare a regulatory impact analysis if a rule may have a significant impact on the operations of a substantial number of small rural hospitals. This analysis must conform to the provisions of section 604 of the RFA. For purposes of section 1102(b) of the Act, we define a small rural hospital as a hospital that is located outside of a Metropolitan Statistical Area and has fewer than 100 beds.

Section 202 of the Unfunded Mandates Reform Act of 1995 also requires that agencies assess anticipated costs and benefits before issuing any rule that may result in expenditure in any one year by State, local, or tribal governments, in the aggregate, or by the private sector, of \$110 million. This final notice will have no consequential effect on State, local, or tribal governments, and the private sector cost of this rule falls below these thresholds as well.

We have reviewed this final notice under the threshold criteria of E.O. 13132, Federalism. We have determined that this final notice will not significantly affect the rights, roles, and responsibilities of the States.

We have examined the economic impact of this notice on M+C organizations and find that the overall impact is positive. However, because the number of ESRD patients enrolled in M+C organizations represents a very small fraction of M+C organizations' annual receipts, and because a small number of M+C organizations qualify as small entities under the RFA, the Secretary is certifying that this notice will not have a significant impact on a substantial number of small entities. To our knowledge, no small rural hospitals will be affected by this notice, so the Secretary is also certifying that this notice will not have a significant impact on a substantial number of small rural hospitals.

In accordance with the provisions of E.O. 12866, this final notice was reviewed by OMB.
