

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The TAA petition, filed on behalf of workers at ASARCO Inc., East Helena Plant, East Helena, Montana, producing lead bullion (primary product produced at the plant), was denied because the "contributed importantly" group eligibility requirement of section 222(3) of the Trade Act of 1974, as amended, was not met. The "contributed importantly" test is generally demonstrated through a survey of the workers' firm's customers. The subject plant customers are located outside the United States and therefore the company can not be impacted by customers purchasing imported lead bullion. The subject firm did not import lead bullion during the relevant period.

The NAFTA-TAA petition for the same worker group was denied because criteria (3) and (4) of the group eligibility requirements in paragraph (a)(1) of section 250 of the Trade Act, as amended, were not met. A survey was not conducted due to the conditions depicted in the previous paragraph. The subject firm did not import lead bullion, nor was production of lead bullion shifted from the workers' firm to Mexico or Canada.

The petitioner alleges that other ASARCO Incorporated locations have been certified for Worker Adjustment Assistance and NAFTA-Transitional Adjustment Assistance. The certifications were based on different principle products, with a different customer base than the subject plants' customer base. The work performed at the subject plant is not vertically integrated into any of those products during the relevant period and therefore can not be associated with any of those certifications. Although the subject plant produced lead bullion for a certified facility, producing refined lead, ASARCO's Omaha, Nebraska (TA-W-35,300 and NAFTA-02752) those certifications expired on May 31, 1998. Therefore, the subject plant can not be considered vertically integrated, due to the time frame of that certification not being within under the relevant time frame.

The petitioner also alleges that the plant was impacted by depressed lead prices and events in international markets. Price and events in international markets are not factors which pertain to the "contributed importantly" criteria.

The Department, when determining import impact for a worker group, does consider import statistics for products similar to what the subject plant produces. U.S. import statistics for refined lead are available, however these statistics are not equivalent to the product (lead bullion—an intermediate product) the subject plant produced. Therefore, those statistics are not reflective of the plant's product. While U.S. import data are helpful in identifying trends in imports of specific products, in most cases, the Department relies on a survey of the major declining customers of the subject firm.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decisions. Accordingly, the application is denied.

Signed at Washington, D.C., this 18th day of September, 2001.

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance and NAFTA Transitional Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, as amended, the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) issued during the period of September, 2001.

In order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate

subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations for Worker Adjustment Assistance

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-39,185; Cemex Kosmos Cement Co., Pittsburgh Plant, Pittsburgh, PA
TA-W-39,015; Wheeling Pittsburgh Steel Corp., Wheeling, WV And Operating at the Following Locations A; Beech Bottom, WV, B; Allenport, PA, C; Steubenville, OH, D; Martins Ferry, OH, E; Yorkville, OH
TA-W-39,769; Paxar Corp., Paxar Label Group Woven Division, Canton, NC
TA-W-39,499; Tescom Corp., High Purity Controls Division, Elk River, MN

In the following cases, the investigation revealed that the criteria for eligibility have not been met for the reasons specified.

Increased imports did not contribute importantly to worker separations at the firm.

TA-W-39,444; Berenfield Containers, Ltd, Masury, OH
TA-W-38,851; Norgen, Inc., Mt Clemens, MI
TA-W-39,651; Cranston Print Works, Webster, MA
TA-W-39,889; Wisne Automation and Engineering Co., Novi, MI

The investigation revealed that criteria (2) has not been met. Sales or production did not decline during the relevant period as required for certification.

TA-W-39,946; Valley Machining Co., Rock Valley, IA

The workers firm does not produce an article as required for certification under Section 222 of the Trade Act of 1974.
TA-W-39,653; Covington Industries, Inc., New York, NY
TA-W-39,776; River Parishes Oil Co., Inc., Norco, LA

Also, pursuant to Title V of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182) concerning transitional adjustment assistance hereinafter called (NAFTA-TAA) and in accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act as amended, the Department of Labor presents summaries of determinations regarding eligibility to apply for NAFTA-TAA issued during the month of September, 2001.

In order for an affirmative determination to be made and a certification of eligibility to apply for NAFTA-TAA the following group eligibility requirements of Section 250 of the Trade Act must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, (including workers in any agricultural firm or appropriate subdivision thereof) have become totally or partially separated from employment and either—

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely,

(3) That imports from Mexico or Canada of articles like or directly competitive with articles produced by such firm or subdivision have increased, and that the increases imports

contributed importantly to such workers' separations or threat of separation and to the decline in sales or production of such firm or subdivision; or

(4) That there has been a shift in production by such workers' firm or subdivision to Mexico or Canada of articles like or directly competitive with articles which are produced by the firm or subdivision.

Negative Determinations NAFTA-TAA

In each of the following cases the investigation revealed that criteria (3) and (4) were not met. Imports from Canada or Mexico did not contribute importantly to workers' separations. There was no shift in production from the subject firm to Canada or Mexico during the relevant period.

NAFTA-TAA-05075; *Wilcox Forging Co., Mechanicsburg, PA*
 NAFTA-TAA-05184; *Wisne Automation and Engineering, Novi, MI*
 NAFTA-TAA-04810; *Lobelson and McCabe, Inc., Chapel Hill, TN*

[NAFTA-4323 and TA-W-38,397]

Owens-Brockway, Glass Containers, Brockway, PA; Notice of Revised Determination on Reconsideration

By letter of April 5, 2001, the Glass, Molders, Pottery, Plastics & Allied Workers International Union requested administrative reconsideration of the Department's denial of North American Free Trade Agreement-Transitional Adjustment Assistance (NAFTA-TAA) and Trade Adjustment Assistance (TAA), applicable to workers of Owens-Brockway, Glass Containers, Brockway, Pennsylvania. The notices were published in the **Federal Register** on April 5, 2001, NAFTA-4323 (66 FR 18118), and TA-W-38,397 (66 FR 18117).

The workers were primarily engaged in the production of glass bottles.

The workers were denied NAFTA-TAA on the basis that there was no shift in production to Mexico or Canada, nor were there company or customer imports of glass bottles from Mexico or Canada. The workers were denied TAA because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met.

The union request for reconsideration indicated that the subject plant imported glass bottles from South America. Upon further examination of available glass bottle import statistics, it is now apparent that aggregate U.S. imports of glass bottles increased significantly from Canada and Mexico during the relevant period. The review further depicts a meaningful increase in aggregate U.S. imports of glass bottles during the relevant period.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is
