

Program involves the following three elements:

a. Product Certification for Software Developers. The National Customer Support Center (NCSC) evaluates the accuracy of the calculations of PPP software by processing a test publication file either at the NCSC or at the developer's location (on-site visit).

b. User Certification for PPP Software. The NCSC provides test packages to the users and evaluates the results.

c. PAGE Program Authorization. Publishers who want to use PAGE-certified software and PAGE-certified users to submit per-copy weight and calculated advertising percentages must apply for authorization to the Manager, New York Rates and Classification Service Center (RCSC). See G042 for address.

4.3 Participation

For information about the PAGE certification program, publishers may request a program technical guide (including order forms) by calling 800-238-3150.

Revisions to the California State Implementation Plan, Ventura County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the Ventura County Air Pollution Control District (VCAPCD) portion of the California State Implementation Plan (SIP). This revision concerns nitrogen oxide (NO_x) emissions from boilers, steam generators, and process heaters. We are proposing to approve a local rule that regulates these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Any comments on this proposal must arrive by November 9, 2001.

ADDRESSES: Mail comments to Andy Steckel, Rulemaking Office Chief (AIR-

4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

You can inspect copies of the submitted rule revision and EPA's technical support document (TSD) at our Region IX office during normal business hours. You may also see copies of the submitted rule revision and TSD at the following locations:

Environmental Protection Agency, Air Docket (6102), Ariel Rios Building, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20460

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 1001 "I" Street, Sacramento, CA 95814

Ventura County Air Pollution Control District, 669 County Square Drive, Ventura, CA 93003

FOR FURTHER INFORMATION CONTACT: Al Petersen, Rulemaking Office (AIR-4), U.S. Environmental Protection Agency, Region IX; (415) 744-1135.

SUPPLEMENTARY INFORMATION: This proposal addresses the approval of the local VCAPCD Rule 74.15.1. In the Rules and Regulations section of this **Federal Register**, we are approving this local rule in a direct final action without prior proposal because we believe this SIP revision is not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Dated: September 17, 2001.

Jane Diamond,

Acting Regional Administrator, Region IX.

Revisions to the California State Implementation Plan, El Dorado County Air Pollution Control District and Imperial County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the El Dorado County Air Pollution Control District (EDCAPCD) and Imperial County Air Pollution Control District (ICAPCD) portions of the California State Implementation Plan (SIP). These revisions concern Oxides of Nitrogen (NO_x) emissions from industrial, institutional, and commercial boilers, steam generators, and process heaters as well as administrative matters. We are proposing to approve local rules and proposing to approve the rescission of local rules that regulate emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Any comments on this proposal must arrive by November 9, 2001.

ADDRESSES: Mail comments to Andy Steckel, Rulemaking Office Chief (AIR-4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

You can inspect copies of the submitted rule revisions and EPA's technical support documents (TSDs) at our Region IX office during normal business hours. You may also see copies of the submitted rule revisions at the following locations:

Environmental Protection Agency, Air Docket (6102), Ariel Rios Building, 1200 Pennsylvania Avenue, NW., Washington DC 20460.

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 1001 "I" Street, Sacramento, CA 95814.

El Dorado County Air Pollution Control District, 2850 Fairlane Court, Building C, Placerville, CA 95667.

Imperial County Air Pollution Control District, 150 South 9th Street, El Centro, CA 92243.

FOR FURTHER INFORMATION CONTACT: Al Petersen, Rulemaking Office (AIR-4), U.S. Environmental Protection Agency, Region IX; (415) 744-1135.

SUPPLEMENTARY INFORMATION: This proposal addresses the approval of the local EDCAPCD Rules 101 and 229, the rescission of local EDCAPCD Rules 101 and 102, and the approval of local ICAPCD Rules 100 and 113. In the Rules and Regulations section of this **Federal Register**, we are approving and rescinding these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. We do not plan to open a second comment period, so anyone interested in commenting

should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Dated: September 12, 2001.

Mike Schulz,

Acting Regional Administrator, Region IX.

40 CFR Part 70

[VA-T5-2001-01b; FRL-7073-5]

Clean Air Act Full Approval of Operating Permit Program; Virginia

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to fully approve the operating permit program of the Commonwealth of Virginia. Virginia's operating permit program was submitted in response to the Clean Air Act (CAA) Amendments of 1990 that required States to develop, and submit to EPA, programs for issuing operating permits to all major stationary sources and to certain other sources within the States' jurisdiction. The EPA granted final interim approval of Virginia's operating permit program on June 10, 1997, as corrected on March 19, 1998. Virginia amended its operating permit program to address deficiencies identified in the interim approval action and this action proposes to approve those amendments. In the Final Rules section of this **Federal Register**, EPA is approving the Commonwealth's operating permit program as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the

remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

DATES: Comments must be received in writing by November 9, 2001.

ADDRESSES: Written comments should be mailed to Ms. Makeba Morris, Chief, Permits and Technical Assessment Branch, Mailcode 3AP11, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103 and Virginia Department of Environmental Quality, 629 East Main Street, Richmond, Virginia, 23219.

FOR FURTHER INFORMATION CONTACT: David Campbell, (215) 814-2196, or by e-mail at campbell.dave@epa.gov.

SUPPLEMENTARY INFORMATION: For further information, please see the information provided in the direct final action, with the same title, that is located in the "Rules and Regulations" section of this **Federal Register** publication.

Dated: September 25, 2001.

Donald S. Welsh,

Regional Administrator, Region III.

Clean Air Act Proposed Full Approval of Title V Operating Permit Programs; Clark County Department of Air Quality Management, Washoe County District Health Department, and Nevada Division of Environmental Protection, Nevada

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to fully approve the operating permit programs submitted by the Clark County Department of Air Quality Management¹ (Clark County), Washoe

¹ On August 7, 2001, the governor of Nevada officially shifted responsibility for air quality management in Clark County from the County's Health District to a newly created Department of Air

County District Health Department (Washoe County), and the Nevada Division of Environmental Protection (NDEP). The three operating permit programs were submitted in response to the directive in the 1990 Clean Air Act (CAA) Amendments that permitting authorities develop, and submit to EPA, programs for issuing operating permits to all major stationary sources and to certain other sources within the permitting authorities' jurisdiction. EPA granted final interim approval to Clark County's program on July 13, 1995 (60 FR 36070), to Washoe County's program on January 5, 1995 (60 FR 1741), and to NDEP's program on December 12, 1995 (60 FR 63631). All three permitting agencies revised their programs to satisfy the conditions of interim approval and this action proposes approval of those revisions. NDEP and Clark County made other revisions to their programs since interim approval was granted. EPA is proposing to approve some of the additional revisions made by NDEP and is taking no action on Clark County's additional changes.

DATES: Comments on the program revisions discussed in this proposed action must be received in writing by November 9, 2001.

ADDRESSES: Written comments on this proposed action should be addressed to Gerardo Rios, Permits Office, Air Division (AIR-3), EPA Region IX, 75 Hawthorne Street, San Francisco, California, 94105. You can inspect copies of the program submittals, and other supporting documentation relevant to this action, during normal business hours at Air Division, EPA Region IX, 75 Hawthorne Street, San Francisco, California, 94105. You may also see copies of the submitted title V programs at the appropriate permitting agency location below:

Clark County Department of Air Quality Management, 651 Shadow Lane, Las Vegas, Nevada 89106;

Washoe County District Health Department, 401 Ryland Street, Suite 331, Reno, Nevada 89520; and

Nevada Division of Environmental Protection, 333 W. Nye Lane, Room 138, Carson City, Nevada 89706.

Quality Management, overseen by the Clark County Air Quality Management Board. Since the change is effectively a shift in the organizational location of the County's air quality management program and all rules, regulations, and policies of the Health District are being carried over to the new Department, EPA is today proposing to grant full approval to Clark County's operating permits program, which will be administered by the County's Department of Air Quality Management.
