Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* Part 61—Licensing Requirements for Land Disposal of Radioactive Waste.
2. *Current OMB approval number:* 3150-0135.
3. *How often the collection is required:* Applications for licenses are submitted as needed. Other reports are submitted annually and as other events require.
4. *Who is required or asked to report:* Applicants for and holders of an NRC license for land disposal of low-level radioactive waste, and all generators, collectors, and processors of low-level waste intended for disposal at a low-level waste facility.

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
