

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Project No. 11811-001]

Wisconsin Logs, Inc.; Notice of Surrender of Preliminary Permit

November 19, 2001.

Take notice that Wisconsin Logs, Inc., permittee for the proposed Merrill Paper Mill Project, has requested that its preliminary permit be terminated. The permit was issued on January 4, 2001, and would have expired on December 31, 2003. The project would have been located on the Prairie River in Lincoln County, Wisconsin. The permittee states that due to present economic and political conditions the project has become unviable.

The permittee filed the request on November 1, 2001, and the preliminary permit for Project No. 11811 shall remain in effect through the thirtieth day after issuance of this notice unless that day is Saturday, Sunday, or holiday as described in 18 CFR 385.2007, in which case the permit shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR part 4, may be filed on the next business day.

David P. Boergers,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7107-3]

Agency Information Collection Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following proposed and/or continuing Information Collection Requests (ICRs) to the Office of Management and Budget (OMB). Before submitting the ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collections as described below.

DATES: Comments must be submitted on or before January 25, 2002.

ADDRESSES: U.S. Environmental Protection Agency, 1200 Pennsylvania

Avenue NW., Mail Code 2225A, OECA/OC/AgD, Washington, DC 20460. A copy of this ICR may be obtained from Stephen Howie tel: (202) 564-4146; e-mail: howie.stephen@epa.gov.

FOR FURTHER INFORMATION CONTACT:

Stephen Howie, tel: (202) 564-4146; FAX: (202) 564-0085; e-mail: howie.stephen@epa.gov.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those which produce pesticides.

Title: Application for Registration of Pesticide Producing Establishment (EPA Form 3540-8) and Pesticides Report for Pesticide Producing Establishments (EPA Form 3540-16). OMB Control Number 2070-0078. Expires 5/31/2002.

Abstract: The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 7(a) requires that any person who produces pesticides or active ingredients subject to the Act must register with the Administrator of EPA the establishment in which the pesticide is produced. This section further requires that the application for registration of any establishment shall include the name and address of the establishment and of the producer who operates such an establishment. EPA Form 3540-8, Application for Registration of Pesticide-Producing Establishments, is used to collect the establishment registration information required by this section.

FIFRA section 7(c) requires that any producer operating an establishment registered under section 7 report to the Administrator within 30 days after it is registered, and annually thereafter by March 1st for certain pesticide/device production and sales/distribution information. The producers must report which types and amounts of pesticides, active ingredients, or devices are currently being produced, were produced during the past year, sold or distributed in the past year. The supporting regulations at 40 CFR part 167 provide the requirements and time schedules for submitting production information. EPA Form 3540-16, Pesticide Reports for Pesticide-Producing Establishments, is used to collect the pesticide production information required by section 7(c) of FIFRA.

Establishment registration is a one-time requirement for all pesticide-producing establishments. Pesticide production information, is required to be submitted within 30 days of receipt of the Notification of Registration of Pesticide-Producing Establishments and annually thereafter on or before March 1.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden: The average annual burden to the industry over the next three years is estimated to be 2 person hours per response.

Respondents/affected entities: 12,412.

Estimated number of respondents: 12,412.

Frequency of responses: 1.

Estimated total annual hour burden: 24,824.

There are no capital/startup costs or operating and maintenance (O&M) costs associated with this ICR since all equipment associated with this ICR is present as part of ordinary business practices.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: November 7, 2001.

Kate M. Perry,

Acting Director, Agriculture Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7107-5]

Trichloroethylene Health Risk Assessment

AGENCY: Environmental Protection Agency.

ACTION: Notice of extension of public comment period.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is extending by 60 days the public comment period on the draft report, "Trichloroethylene Health Risk Assessment: Synthesis and Characterization," External Review Draft, (EPA/600/P-01/002A). An initial 60-day public comment period had been announced in the Notice of Availability published on September 19 (66 FR 48257-48258). Extensions were requested by the Air Force, the Halogenated Solvents Industry Alliance, ARCADIS G&M, the Chlorine Chemistry Council, and the General Electric Company. EPA has decided to grant an extension of the comment period until January 18, 2002.

EPA's Science Advisory Board (SAB) will convene an external peer-review panel to review the draft assessment. The SAB will publish a subsequent **Federal Register** notice to announce the time and place of the peer-review meeting, including information on how the public can participate. After the peer-review meeting, NCEA will address the panel's comments and the public's comments and issue a final assessment. At that time, a summary of the final assessment will be included on EPA's Integrated Risk Information System (IRIS).

DATES: Comments should be in writing and must be received (not postmarked) by January 18, 2002.

ADDRESSES: The draft assessment is available on the Internet at <http://www.epa.gov/ncea>. A limited number of paper copies are available from the National Center for Environmental Assessment's Technical Information Staff, telephone: 202-564-3261; facsimile: 202-565-0050. If you request a paper copy, please provide your name, mailing address, and the report title, Trichloroethylene Health Risk Assessment.

Comments may be mailed to the Technical Information Staff at the mailroom address: Technical Information Staff (8623-D), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460. Comments should be in writing and must be received by January 18, 2002. Comments may also be delivered to the Technical Information Staff at the office address: 808 17th Street NW., 5th Floor, Washington, DC 20006; telephone: 202-564-3261; facsimile: 202-565-0050. Electronic comments may be e-mailed to: nceadc.comment@epa.gov. While not a requirement, commenters are encouraged to provide both a hard copy of their comments and electronic files of their comments in a common word-processing format.

FOR FURTHER INFORMATION CONTACT: Dr. Jim Cogliano, National Center for Environmental Assessment, telephone: 202-564-3288; facsimile: 202-565-0079; e-mail: cogliano.jim@epa.gov.

Dated: November 16, 2001.

George W. Alapas,

Acting Director, National Center for Environmental Assessment.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

November 16, 2001.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the

information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before December 26, 2001. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commission, Room 1-C804, 445 12th Street, SW, DC 20554 or via the Internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judy Boley at 202-418-0214 or via the Internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0216.

Title: Section 73.3538, Application to make changes in an existing station.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit; not for profit institutions.

Number of Respondents: 50.

Estimated Time Per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 50 hours.

Total Annual Cost: \$0.

Needs and Uses: On February 14, 2001, the Commission adopted a Report and Order in MM Docket No. 93-77 in the matter of An Inquiry Into the Commission's Policies and Rules Regarding AM Radio Service Directional Antenna Performance Verification. This Report and Order relaxed the technical requirements for AM stations using directional antennae. Among other things, this Report and Order eliminated the need to file an informal application to specify new AM station directional antenna field monitoring points. Revised section 73.3538(b) requires a broadcast station to file an informal application to modify or discontinue the obstruction marking or lighting of an antenna supporting structure. The requirement to file an informal application to relocate the main studio outside the principal community contour has approval under section 73.1125 (3060-0171). The data are used by FCC staff to ensure that the modification or discontinuance of the obstruction marking or lighting will not cause a menace to air navigation.
