Abstract: The U.S. Department of Agriculture's Food Guide Pyramid is designed to help all healthy Americans two years of age and over implement the Dietary Guidelines for Americans. The proposed qualitative consumer research will describe consumers' understanding and use of the Food Guide Pyramid along with possible barriers to following the Pyramid's guidance. This study involves eighteen focus group sessions, 6 with general consumers and 4 each with the elderly, overweight, and food stamp recipients, to explore how consumers understand the concepts and messages of the consumer brochure and graphic illustration of the Food Guide Pyramid. The study will also obtain feedback on how and to what extent consumers use the Pyramid to make food choices, and will help to identify any barriers they face in applying Pyramid recommendations to their food choices. The information gathered along with additional information will be used by USDA in the reassessment and potential revision of the Food Guide Pyramid, and in message development and other communications efforts used to promote the Pyramid.

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an Environmental Impact Statement.

SUMMARY: The Soda Springs Ranger District, Caribou-Targhee National Forest, will be preparing an Environmental Impact Statement (EIS) to analyze the effects to grazing on several sheep allotments. Allotment Management Plans for the following sheep allotments; Bald Mountain, Barnes Creek, Black Canyon, Bridge Creek, Comb Creek, Deep Creek, Eagle Creek-Morgan Meadow, Hell Creek, Keenan City, Little Elk Mountain, Miners Delight, Pole Creek, Spring Creek, Squaw Creek, Taylor Creek, West Jensen and Wolverine-Kirk will be updated based on the analysis. All of these allotments are located on the North end of the Caribou Range in Townships 2-5 South, Ranges 43-46 East, Boise Meridian, within Caribou and Bonneville Counties. An EIS will be prepared to display the effects of sheep grazing on these allotments. Public comments will be used to develop issues and alternative management systems. The purpose for this project is to assess current conditions on the allotments and ensure that riparian and upland vegetation are meeting Forest Plan objectives and other applicable laws and regulations. The EIS will outline standards and guidelines for livestock management, which will be used to revise Allotment Management Plans for each allotment. The EIS and subsequent revision of the Allotment Management Plans will bring these

allotments into compliance with Public Law 104, the Caribou National Forest Land and Resource Management Plan, and other applicable laws and regulations. The decision to be made by the District Ranger is what changes need to be made for future livestock management within the boundaries of these allotments.

DATES: Written comments concerning the analysis should be received within 30 days of the date of publication of this notice in the **Federal Register**.

ADDRESSES: Send written comments to Soda Springs Ranger District, Attn: David Whittekiend, 421 West 2nd South, Soda Springs, Idaho 83276. The responsible official for this decision is David Whittekiend, District Ranger.

FOR FURTHER INFORMATION CONTACT:

Questions concerning the proposed action and EIS should be directed to Derek Hinckley, Range Management Specialist, at (208) 547-4356.

Initial scoping and issue development identified the following tentative issues: riparian/fisheries, wildlife, vegetation and watershed/soils.

The Forest Service has previously scoped this project in February of 2001. If you have already commented, your comments are part of the record and will be considered in determining issues, and alternatives. The Forest Service invites written comments and suggestions on the issues related to the proposal and the area being analyzed. Information received will be used in preparation of the Draft EIS and Final EIS. For most effective use, comments should be submitted to the Forest Service within 30 days from the date of publication of this Notice in the **Federal Register**.

Agency representatives and other interested people are invited to visit with Forest Service officials at any time during the EIS process. Two specific time periods are identified for the receipt of formal comments on the analysis. The two comment periods are, (1) during the scoping process, the next 30 days following publication of this Notice in the **Federal Register**, and (2) during the formal review period of the Draft EIS.

The Draft EIS is estimated to be filed with the Environmental Protection Agency (EPA) and available for public review in August of 2002. At that time,
