

company depict increases in plant sales and production.

The petitioner's statement regarding reduced orders by their major customer is not relevant unless declines in sales and production occur during the period of the investigation. Since plant sales and production increased during the scope of the initial investigation, criterion 2 of the group eligibility requirement was not met. If these conditions changed since the initial decision, the petitioners are encouraged to reapply for TAA group eligibility.

The petitioner's statements that increased import competition of automobiles may have impacted the customer of the subject firm is not a relevant factor to the petition that was filed on behalf of workers producing components for automobiles at the subject plant. The products imported must be like and directly competitive with those products produced at the subject firm to meet the "contributed importantly" criterion.

#### Conclusion

After reconsideration, I affirm the original notice of negative determination of eligibility to apply for worker adjustment assistance for workers and former workers of Borg Warner Air/Fluid Systems Corporation, Water Valley, Mississippi.

Signed at Washington, DC this 13th day of November 2001.

#### Chiquola Fabrics, LLC, Kingsport, Tennessee; Notice of Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on May 29, 2001 in response to a petition filed by a company official on the same date on behalf of workers at Chiquola Fabrics, LLC, Kingsport, Tennessee. #### Elizabeth Webbing, Inc., Central Falls, Rhode Island; Notice of Affirmative Determination Regarding Application for Reconsideration

By letter of August 1, 2001, the workers requested administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, petition TA-W-39,068. #### ISB Fashion, Inc., New York, New York; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273), the Department of Labor issued a Notice of Certification Regarding Eligibility to Apply for Worker Adjustment Assistance on August 29, 2001, applicable to workers of ISB Fashion, Inc., New York, New York. The notice was published in the **Federal Register** on September 11, 2001 (66 FR 47241).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers were engaged in the production of women's dresses. Findings show that the Department incorrectly set the worker certification impact date at June 21, 2001. The impact date should be June 21, 2000, one year prior to the date of the petition.

Accordingly, the Department is amending the certification to properly reflect this matter.

The amended notice applicable to TA-W-39,560 is hereby issued as follows:
