DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Project No. 6132-006]****Facilitators Improving Salmonid Habitat (FISH); Notice of Extension of Time to Comment on Environmental Assessment**

November 29, 2001.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, the Office of Energy Projects has reviewed the application dated July 11, 2001, requesting the Commission's approval to surrender the Exemption from licensing and removal of a dam at the John C. Jones Project, located on the Marsh Stream, a tributary of the Penobscot River, near the towns of Winterport and Frankfort, in Waldo County, Maine, and has prepared an Environmental Assessment (EA) for the proposed and alternative actions. A notice issued October 5, 2001, established November 5, 2001, as the deadline for comments on the EA.

In response to our notice, several requests were made to extend our November 5, 2001, comment deadline by six months to prepare and present new information on recreational, public safety and environmental concerns and projected reduction of property values. The parties cite the need to gather additional information, which should be adequately done in 60 days; this is in addition to the several months that have passed since the August 7, 2001, application public notice issuance date. Accordingly, we are granting an extension of 60 days from the date of this notice to file additional information on our EA.

Comments should be addressed to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC, 20426. Please affix "John C. Jones Project No. 6132-006" to the first page of your comments. All timely filed comments will be considered in the Commission order addressing the proposed surrender of exemption and dam removal. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Project No. 11428-000 Michigan]****City of St. Louis, Michigan; Notice of Availability of Final Environmental Assessment**

November 29, 2001.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for license for the Municipal Dam Hydroelectric Project, located on the Pine River in Gratiot County, Michigan, and has prepared a Final Environmental Assessment (FEA) for the project.

The FEA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the FEA is on file with the Commission and is available for public inspection. The FEA may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link—select "Docket#" and follow the instructions (call 202-208-2222 for assistance).
