

benefit from these loans. Based upon the comment received and further review of the questionnaire responses, we have made three changes related to this program since the preliminary results: (1) We have found the exemption from stamp taxes to be not countervailable; (2) we have analyzed the KKDF and the BIST (Banking and Insurance Transactions) tax exemptions as two separate programs; and (3) we have changed the benefit calculation methodology for the KKDF and BIST tax exemptions on certain loans. These changes are discussed in further detail in the relevant sections of the *Decision Memorandum*.

Final Results of Review

In accordance with 19 CFR 351.221(b)(4)(i), we calculated an individual subsidy rate for each producer/exporter subject to this administrative review. For the period January 1, 1999 through December 31, 1999, we determine the net subsidy rates for producers/exporters under review to be those specified in the chart shown below.

Company	Ad valorem rate (percent)
Beslen Makarna Gida Sanayi ve Ticaret A.S. and Beslen Pazarlama Gida Sanayi ve Ticaret A.S.	0.00
Filiz Gida Sanayi ve Ticaret A.S.	0.00
Maktas Makarnacilik ve Ticaret A.S.	6.52
Pastavilla Makarnacilik Sanayi ve Ticaret A.S.	1.73

We will instruct the Customs Service ("Customs") to assess countervailing duties as indicated above. The Department will also instruct Customs to collect cash deposits of estimated countervailing duties in the percentages detailed above of the f.o.b. invoice prices on all shipments of the subject merchandise from the producers/exporters under review, entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review.

The cash deposit rates for all companies not covered by this review are not changed by the results of this review. Thus, we will instruct Customs to continue to collect cash deposits for non-reviewed companies. Accordingly, the cash deposit rates that will be applied to non-reviewed companies covered by this order are those established in the *Notice of Countervailing Duty Order: Certain*

Pasta ("Pasta") from Turkey, 61 FR 38546 (July 24, 1996), which provides the most recently published countervailing duty rates for companies not reviewed in this administrative review. These rates shall apply to all non-reviewed companies until a review of a company assigned these rates is completed. In addition, for the period January 1, 1999 through December 31, 1999, the assessment rates applicable to all non-reviewed companies covered by these orders are the cash deposit rates in effect at the time of entry.

Catalog of Federal Domestic Assistance (CFDA): 11.114—Special American Business Internship Training Program.

Program Description

The Department of Commerce, International Trade Administration (ITA) established the SABIT program in September 1990 to assist the former Soviet Union's transition to a market economy. Since that time, SABIT has been supporting U.S. companies that wish to provide business executives and scientists from the NIS three-to six-month programs of hands-on training in a U.S. market economy.

Under the SABIT program, qualified U.S. firms will receive funds through a cooperative agreement with ITA to help defray the cost of hosting interns. The training must take place in the United States. ITA will interview NIS managers or scientists nominated by participating U.S. companies, or assist in identifying eligible candidates. Interns may be from any of the following Independent States: Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, and Uzbekistan. However, specific restrictions may apply. The U.S. firms will be expected to provide the interns with a hands-on, non-academic,

executive training program designed to maximize their exposure to management or commercially-oriented scientific operations. At the end of the training program, interns must return to the NIS. If there is any evidence of a conflict of interest between an intern and the company, the intern is disqualified.

SABIT exposes NIS business managers and scientists to a completely new way of thinking in which demand, consumer satisfaction, and profits drive production. Senior-level interns visiting the U.S. for internship programs with public or private sector companies will be exposed to an environment which will provide them with practical knowledge for transforming their countries' enterprises and economies to the free market. The program provides first-hand, eye-opening experience to managers and scientists which cannot be duplicated by American managers traveling to their territories.

Managers: SABIT assists economic restructuring in the NIS by providing top-level business managers with practical training in American methods of innovation and management in such areas as strategic planning, financing, production, distribution, marketing, accounting, wholesaling, and/or labor relations. This first-hand experience in the U.S. economy enables interns to become leaders in establishing and operating a market economy in the NIS, and creates a unique opportunity for U.S. firms to familiarize key executives from the NIS with their products and services. Sponsoring U.S. firms will benefit by establishing relationships with key managers in similar industries who are uniquely positioned to assist their U.S. sponsors do business in the Independent States.

Scientists: SABIT provides opportunities for gifted scientists to apply their skills to peaceful research and development in the civilian sector, in areas such as defense conversion, medical research, and the environment, and exposes them to the role of scientific research in a market economy where applicability of research relates to business success. Sponsoring firms in the U.S. scientific community also benefit from exchanging information and ideas, and different approaches to new technologies.

All internships are three to six months; however, ITA reserves the right to allow an intern to stay for a shorter period of time (no less than one month) if the U.S. company agrees and the intern demonstrates a need for a shorter internship based on his or her management responsibilities. ITA will reimburse companies for the round trip international travel (coach class tickets)

of each intern from the intern's home city in the NIS to the U.S. internship site, upon submission of the paid travel invoice, payment receipt, or other evidence of payment and the form SF-270, "Request for Advance or Reimbursement." Travel under the program is subject to the Fly America Act. Recipient firms provide directly to interns a stipend of \$34 a day. Recipient firms will be reimbursed for this stipend, up to a maximum of six months, upon the submission of an end-of-internship report and Standard Form SF-270, Request for Advance and/or Reimbursement. Interns must return to their home countries immediately upon completion of their U.S. internships. Recipient firms will provide housing for the interns and will be reimbursed for up to \$500 per month for housing costs (not including utilities or telephone service charges), upon the submission of the end-of-internship report and Standard Form SF-270. For cities with higher costs of living, up to \$750.00 may be reimbursed. In either case, sufficient proof of the actual cost of similar housing in the local area must be provided. In general, each award will have a cap of \$13,700 per intern for total cost of airline travel, stipend and housing costs. ITA reserves the right to allow an award to exceed this cap in cases of unusually high costs, specifically airfare from remote regions of the NIS such as Central Asia and the Caucasus. However, the total reimbursement cannot exceed the award amount. There are no specific matching requirements for the awards. Recipient firms, however, are expected to bear the costs beyond those covered by the award, including: visa fees, insurance, any food and incidentals costs beyond the \$34 per day stipend, training manuals, additional lodging costs beyond the reimbursed amount, any training-related travel within the U.S., and provision of the hands-on training for the interns.

U.S. firms wishing to utilize SABIT in order to be matched with an intern without applying for financial assistance may do so. Such firms will be responsible for all costs, including travel expenses, related to sponsoring the intern. However, prior to acceptance as a SABIT intern, work plans and candidates must be approved by the SABIT Program. Furthermore, program training will be monitored by SABIT staff and evaluated upon completion of training.

ITA does not guarantee that it will match Applicants with the profile provided to SABIT.

Funding Availability

Pursuant to section 632(a) of the Foreign Assistance Act of 1961, as amended (the "Act") funding for the program will be provided by the United States Agency for International Development (A.I.D.). ITA will award financial assistance and administer the program pursuant to the authority contained in section 635(b) of the Act and other applicable grant rules. The estimated amount of financial assistance available for the program is \$1,500,000. Additional funding may become available at a future date.

Matching Requirements

There are no specific matching requirements.

Funding Instrument

Federal assistance will be awarded pursuant to a cooperative agreement between DOC and the recipient firm.

Eligibility Criteria

Eligible applicants for the SABIT program will include all for profit or non-profit U.S. corporations, associations, organizations or other public or private entities located in the United States. Agencies or divisions of the federal government are not eligible. However, state and local governments are eligible.

Award Period

Funds will be available effective with the publication of this notice. The funds will remain available until they are expended. Recipient firms will have one year from the date listed on the Financial Assistance Award, CD-450, in order to use the funds. However, DOC reserves the right to allow an extension if the recipient can justify the need for extra time. If applicants incur any costs prior to an award being made, they do solely at their own risk of not being reimbursed by the Government. Notwithstanding any verbal or written assurance that may have been received, there is no obligation on the part of DOC to cover pre-award costs.

Evaluation Criteria

Consideration for financial assistance will be given to those SABIT proposals which:

(1) Present a realistic work plan describing in detail the training program to be provided to the SABIT intern(s). Work plans must include the proposed internship training activities. The components of the training activities must be described in as much detail as possible, preferably on a week-by-week basis. The description of the training activities should include an account of

what the intern's(s) duties and responsibilities will be during the training. Please note, if you are coordinating an internship which will take place at several companies, you must provide a workplan for each company.

(2) Demonstrate a commitment to the intent and goals of the program to provide practical, on-the-job, non-academic, non-classroom, training: in the case of manager interns, an appropriate management training experience, or, in the case of scientist interns, a practical, commercially-oriented scientific training experience. Include a brief objectives section indicating why the Applicant wishes to provide an internship to a manager(s) or scientist(s) from the NIS, and how the proposed internship would further the purpose of the SABIT program as described above. Also, the Applicant should note how the internship to be provided will respond to the priority needs of senior business managers and scientists in the NIS.

(3) Provide fully the following information: (a) Whether Applicant is applying to host managers or scientists, or both (and the number of each); (b) Whether potential intern candidate(s) is(are) employed in priority industries, and which one(s); (c) The duration of the internship; (d) The location(s) of the internship; (e) The name, address, and telephone number of the application's preparer and the name, address, and telephone number of the designated internship coordinator; (f) Name(s) of division(s) in which the intern(s) will be placed; (g) The individual(s) in the U.S. company under whose supervision the intern will train; (h) The anticipated housing arrangements to be provided for the intern(s). Note that housing arrangements should be suitable for mid- and senior-level professionals, and that each intern must be provided with a private room; (i) A statement that the host firm is solidly committed to interns' return to their own countries upon completion of the internships.

(4) Provide a general description of the profile of the intern(s) the Applicant would like to host, including: educational background; occupational/professional background (including number of years and areas of experience); size and nature of organization at which the intern(s) is/are presently employed; preference for the region of the NIS where the intern(s) is/are employed; and whether Applicant is open to sponsoring interns from a variety of NIS countries. If the U.S. company is nominating an intern candidate, please provide a resume for said candidate. Evaluation criteria are

listed in decreasing importance. That is, evaluation criterion 1 is most important, followed by criterion 2, etc.

Project Funding Priorities

Applicant proposal must provide an explanation, including description and extent of involvement, in priority business sector(s). While Applicants involved in any industry sector may apply to the program, priority consideration is given to those operating in the following sectors: (a) Agribusiness (including food processing and distribution, and agricultural equipment), (b) Defense conversion, (c) Energy, (d) Environment (including environmental clean-up), (e) Financial services (including banking and accounting), (f) Housing, construction and infrastructure, (g) Medical equipment, supplies, pharmaceuticals, and health care management, (h) Product standards and quality control, (i) Telecommunications, (j) Transportation and (k) Biotechnology.

Selection Procedures

Each application will receive an independent, objective review by one or more three or four-member independent review panels qualified to evaluate applications submitted under the program. Applications will be evaluated on a competitive, "rolling" basis as they are received in accordance with the selection evaluation set forth above. Awards will be made to those applications which successfully meet the selection criteria. If funds are not available for all those applications which successfully meet the criteria, awards will be made to the first applications received which successfully do so. ITA reserves the right to reject any application; to limit the number of interns per applicant; and to waive informalities and minor irregularities in applications received. The final selecting official reserves the right to make awards based on U.S. geographic and organization size diversity among applicants, as well as to consider priority business sectors (listed in Project Funding Priorities, above) when making awards. Recipients may be eligible, pursuant to approval of an amendment of an active award, to host additional interns under the program. ITA reserves the right to evaluate applicants based on past performance. The Director of the SABIT Program is the final selecting official for each award.

Intergovernmental Review

Applications under this program are not subject to Executive Order 12372,

"Intergovernmental Review of Federal Programs."
