

Financial and technical are the most important criteria and are equal in importance. Benefit to the Navy is next in importance. Curatorial and Community are less important than Benefit to the Navy and are equal in importance.

The Secretary of the Navy will make the final decision as to the donation of Ex-HOGA. After the decision to donate the ship is made, the Navy notifies Congress and Congress has 30 days of continuous session to consider the decision.

A detailed description of all donation application criteria and donation application information can be obtained from the Navy Donation Program Web Site at <http://www.navsea.navy.mil/ndp/>, or from the contact person listed below.

FOR FURTHER INFORMATION CONTACT: Commander, Naval Sea Systems Command, ATTN: Ms. Gloria Carvalho (PMS 333G), 1333 Isaac Hull Avenue SE., Stop 2701, Washington Navy Yard, DC 20376-2701, telephone (202) 781-0485.

Dated: December 7, 2001.

T. J. Welsh,

Lieutenant Commander, Judge Advocate General's Corps, U.S. Navy, Federal Register Liaison Officer.

BILLING CODE 3810-FF-P

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before February 11, 2002.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader,

Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: December 7, 2001.

John Tressler,

Leader, Regulatory Information Management, Office of the Chief Information Officer.

Student Financial Assistance

Type of Review: Revision.

Title: Federal Family Education Loan (FFEL), Direct Loan, and Perkins Loan Discharge Applications.

Frequency: One time.

Affected Public: Businesses or other for-profit.

Reporting and Recordkeeping Hour Burden:

Responses: 70,200.

Burden Hours: 35,100.

Abstract: These forms will serve as the means of collecting the information necessary to determine whether a FFEL or Direct Loan borrower qualifies for a loan discharge based on total and permanent disability, school closure, false certification of student eligibility, or unauthorized signature. The school closure discharge application may also be used by Perkins Loan borrowers applying for a closed school discharge.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, or should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW., Room 4050, Regional Office Building 3, Washington, DC 20202-4651. Requests may also be

electronically mailed to the Internet address OCIO.RIMG@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Joseph Schubart at (202) 708-9266 or via his Internet address Joe.Schubart@ed.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Environmental Assessment and Finding of No Significant Impact for Transportation of Low-Level Radioactive Waste From the Oak Ridge Reservation to Off-Site Treatment or Disposal Facilities

AGENCY: Department of Energy.

ACTION: Notice of availability.

SUMMARY: The Department of Energy (DOE), announces the availability of the Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) for Transportation of Low-Level Radioactive Waste from the Oak Ridge Reservation to Off-Site Treatment or Disposal Facilities (DOE/EA-1315) for public review and comment. The EA has been prepared in accordance with the requirements of the National Environmental Policy Act of 1969 as amended (NEPA); Council on Environmental Quality regulations implementing NEPA, 40 CFR parts 1500-1508; and DOE NEPA Implementing Procedures.

DATES: The review period for the EA/FONSI begins with publication of this notice and extends for 30 days. Comments postmarked after that date will be considered to the extent practicable.

ADDRESSES: Comments on the EA/FONSI may be submitted by mail: Mr. William G. McMillan, U.S. Department of Energy, Oak Ridge Operations Office, PO Box 2001, Oak Ridge, Tennessee 37831, or by telephone (1-865-241-6426), or by fax (1-865-576-6074), or electronically at McMillanWG@oro.doe.gov, or by submitting comments to the NEPA e-mail box at NEPA@oro.doe.gov.

Copies of the Draft EA may also be obtained by contacting Mr. William McMillan by any of the means described

above. The Draft EA is also available for review at the U.S. Department of Energy Public Reading Room at 230 Warehouse Road, Oak Ridge, TN 37830. Phone: (865) 241-4780 or 1-800-382-6938, option 6).

FOR FURTHER INFORMATION CONTACT: For general information on the DOE NEPA process, please contact: Ms. Carol M. Borgstrom, Director, Office of NEPA Policy and Compliance (EH-42), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, telephone 202-586-4600, or leave a message at 1-800-472-2756.

SUPPLEMENTARY INFORMATION: The EA evaluates the potential environmental impacts associated with transportation of legacy and operational low-level (radioactive) waste (LLW) from the Oak Ridge Reservation (ORR) in Tennessee for treatment or disposal at various locations in the United States. DOE has determined that the proposed action is not a major Federal action that would significantly affect the quality of the human environment within the context of NEPA. Therefore, preparation of an environmental impact statement is not necessary, and DOE is issuing a FONSI. The EA also evaluates the potential environmental impacts associated with the no action alternative.

The draft Environmental Assessment was distributed in June 2000 to the NEPA coordinators in each state through which proposed rail or highway routes pass, as well as to local stakeholders in the Oak Ridge, Tennessee, area. Their comments were received and incorporated into the document. Because this document involves transportation across the continental United States, however, DOE has concluded that it should provide opportunity for further comment to a broader distribution. Therefore, these documents are available for a 30-day public comment period. If significant issues are documented as a result of this comment period, the document will be revised as appropriate.

The DOE-Oak Ridge Operations (ORO) Office has LLW that must be transported from Oak Ridge to treatment and disposal facilities because on-site disposal is not available for the expected large life-cycle volumes, nor for the technical constituents, of many ORR LLW streams. The reservation encompasses three major DOE facilities: Oak Ridge National Laboratory (ORNL), Oak Ridge Y-12 Plant, and East Tennessee Technology Park (ETTP). Large quantities of LLW have been generated as a result of normal

operations associated with research or manufacturing conducted at these facilities. DOE legacy and operational LLW on ORR (approximately 40,000 m³) is managed in compliant storage. It is estimated that 7700 m³ of waste could be generated annually from operations over the next 20 years. While a large portion of ORR LLW will eventually be shipped to other federally owned, DOE-operated disposal facilities, DOE also intends to use commercial disposal facilities when cost-effective, compliant, and in the best interest of the government.

The planned action is to package as needed, load, and ship existing and forecasted ORR LLW to existing or future facilities at other DOE sites such as the Nevada Test Site (NTS), the Hanford Reservation, the Savannah River Site, and licensed commercial nuclear waste treatment or disposal facilities. These include Envirocare of Utah Inc. (Envirocare), Clive, Utah; Waste Control Specialists (WCS), Andrews, Texas; commercial facilities near the Savannah River Site (SRS), Aiken, South Carolina; commercial facilities near ORR; and commercial facilities near the Hanford Site, Richland, Washington. LLW will either be shipped directly from ORR to a DOE or licensed commercial disposal facility or to a licensed commercial treatment facility and then to a DOE or licensed commercial disposal facility. ORR LLW will generally be transported by truck but may also be transported by rail or intermodal carrier (i.e., truck and rail combination) when advantageous.

The impact analysis in the EA addressed the potential effects of loading and transporting accumulated legacy and ongoing operations LLW from Oak Ridge, Tennessee, to destinations representative of other DOE sites and licensed commercial nuclear waste treatment or disposal facilities. The potential effects of transport over both highway and rail routes were evaluated. Evaluation of LLW being generated by ongoing operations at the ORR was based on volumes anticipated over a 20-year life cycle. The potential effects were evaluated on per shipment, annual, and 20-year bases. The EA did not address waste for which treatment and disposal are addressed pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), on-site activities that are already being conducted as a part of routine waste management at the ORR, or activities conducted prior to loading or at the destination facilities.

Issued in Oak Ridge, Tennessee, on October 29, 2001.

David Allen,

Oak Ridge Operations Office, NEPA Compliance Officer.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. ER01-3000-001, EC01-146-001 and RT01-101-001]

International Transmission Company; and DTE Energy Company; Notice of Filing

December 7, 2001.

Take notice that on November 27, 2001, International Transmission Company (International Transmission) tendered for filing with Federal Energy Regulatory Commission (Commission) a Supplemental Agreement. The Supplemental Agreement is a multi-party contract by and among International Transmission, the Midwest Independent Transmission System Operator, Inc. (Midwest ISO), and each of the Midwest ISO transmission owners (Owners).

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before December 14, 2001. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Linwood A. Watson, Jr.,

Acting Secretary.
