

comment stated that clarification is needed as to whether Medication Guides would be needed for medical devices that have a prescription drug either as a coating or incorporated into the material of the device, or as a component in a kit. The comment said that some of these types of products might be considered combination products.

FDA requested comments on the information collection burden estimates described in the notice. Because the comment does not pertain to the burden estimates, FDA has forwarded the comment to Docket Number 93N-0371, "Prescription Drug Product Labeling; Medication Guide Requirements." FDA appreciates the comment and will consider it as part of its Medication Guide program.

Dated: December 7, 2001.
