What Is Mission Valley Power (MVP)?

MVP is a tribal enterprise of the Confederated Salish and Kootenai Tribes (CSKT) operating and maintaining the federally-owned power utility on the Flathead Indian Reservation under the authority of a Public Law 93-638 contract (25 U.S.C. 450f).

Where Can Information on the Regulatory and Legal Citations in This Notice Be Obtained?

You can contact the Northwest Regional Director's office at the location stated above or you can use the Internet site for the Government Printing Office at <http://www.gpo.gov>.

What Is the Purpose of This Notice?

This notice is to notify you that we propose to adjust the power rates and service fees for one of our power utilities. We are publishing this notice in accordance with the BIA's regulations governing its power rates and service fees of power utilities, specifically, 25 CFR 175.10-175.12. These sections provide for the fixing and announcing of power rates and related information for BIA Indian Electric Power Utilities.

What Authorizes Us To Issue This Notice?

Our authority to issue this notice is vested in the Secretary of the Interior by 5 U.S.C. 301, and the Act of August 7, 1946 (60 Stat. 895; 25 U.S.C. 385). The Secretary has delegated this authority to the Assistant Secretary—Indian Affairs under Part 209, Chapter 8.1A, of the Department of the Interior's Departmental Manual, and by memorandum dated January 25, 1994, from the Chief of Staff, Department of the Interior, to Assistant Secretaries, and Heads of Bureaus and Offices.

When Will the Rate Adjustment Be Effective?

The rate adjustment will be in effect starting on, and retroactive to, November 1, 2001.

How Do We Calculate Our Rates?

We calculate rates in accordance with 25 CFR 175.10 by estimating the cost of normal operation and maintenance at our power utility for which you receive

service. Normal operation and maintenance mean the expenses we incur to provide direct support or benefit for the power utility's activities for administration, operation, maintenance, and rehabilitation. These costs are then applied as stated in the rate table in this notice.

What Kinds of Expenses Are Included in Determining Our Estimated Cost of Normal Operation and Maintenance?

We include the following expenses as prescribed in 25 CFR 175.10:

- (a) Personnel salary and benefits for the utility engineer/manager and utility employees under their management control;
- (b) Materials and supplies;
- (c) Major and minor vehicle and equipment repairs;
- (d) Equipment, including transportation, fuel, oil, grease, lease and replacement;
- (e) Capitalization expenses;
- (f) Acquisition expenses;
- (g) Maintenance of a reserve fund available for contingencies or emergency expenses for, and insuring, reliable operation of the power system; and
- (h) Other expenses we determine necessary to properly perform the activities and functions characteristic of a power utility.

When Should You Pay Your Power Bill?

We will mail you a bill for your power service and energy consumption. You should pay your bill no later than the due date stated on the bill. The due date is normally based on locally established payment requirements at each of our projects.

What Information Must We Collect for Billing Purposes and Why Are We Collecting It?

We must collect certain information from you to ensure we can properly process, bill for, and collect monies owed to the United States. We are required to collect the taxpayer identification number or social security number under the authority of, and as prescribed, in the Debt Collection Improvement Act of 1996. At a minimum, this information is:

- (a) Full legal name of person or entity responsible for paying the bill;
- (b) Adequate and correct address for mailing or hand delivering our bill; and
- (c) The taxpayer identification number or social security number of the person or entity responsible for paying the bill.

What Can Happen If You Do Not Provide the Information We Require for Billing Purposes?

We can refuse to provide you service as prescribed in 25 CFR 175.21, 175.22.

What Can Happen if You Don't Pay Your Bill by the Due Date and Could This Affect Your Power Service?

If you do not pay your bill by the due date, you will receive a past due notice no less than 30 days after the due date. We have the right to refuse power service to your facility where the bill is past due for that facility. We can continue to refuse power service to that facility until you pay the past due bill or make payment arrangements that we agree to. When you receive your bill, it will have additional information concerning your rights. Our authority to demand payment of your past due bill is 31 CFR 901.2, "Demand for payment."

Are There any Additional Charges if you Are Late Paying Your Bill?

Yes. We will use the value of funds to the United States as established by the Secretary of the Treasury to calculate the interest you will be assessed. You will not be assessed this charge until your bill becomes past due which occurs on the 31st day after the due date indicated on your bill. However, interest will accrue from the due date on your bill and you will be charged an administrative fee of \$12.50 for each time we try to collect your past due bill. Should your bill become over 90 days past due, you will be assessed a penalty charge of 6 percent per annum and it will accrue from the date your bill initially became past due. Our authority to assess interest, penalties, and administration fees on past due bills is prescribed in 31 CFR 901.9, "Interest, penalties, and administration costs".

What Else Can Happen to Your Past Due Bill?

If you do not pay your bill or make payment arrangements that we agree to, we are required to send your past due bill to the United States Treasury (Treasury) for further action. We must forward your bill to Treasury no later than 180 days after the original due date of your power bill. Our authority to send your bill to Treasury is prescribed in 31 CFR 901.1, "Aggressive agency collection activity".
