7. Experimental Program to Stimulate Competitive Research (EPSCoR)

The objective of the EPSCoR program is to enhance the capabilities of EPSCoR states to conduct nationally competitive energy-related research and to develop science and engineering manpower to meet current and future needs in energy-related fields. This program addresses basic research needs across all of the Department of Energy research interests. Research supported by the EPSCoR program is concerned with the same broad research areas addressed by the Office of Science programs that are described in this notice. The EPSCoR program is restricted to applications, which originate in twenty-one states (Alabama, Alaska, Arkansas, Hawaii, Idaho, Kansas, Kentucky, Louisiana, Maine, Mississippi, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, South Carolina, South Dakota, Vermont, West Virginia, and Wyoming) and the commonwealth of Puerto Rico. It is anticipated that only a limited number of new competitive research grants will be awarded under this program subject to the availability of funds.

Objective Merit Review of Discretionary Financial Assistance Applications

AGENCY: Department of Energy.

ACTION: Notice of objective merit review procedure.

SUMMARY: This Notice establishes the procedure followed by program and regional support offices under the purview of the Assistant Secretary for Energy Efficiency and Renewable Energy in conducting the objective merit review of discretionary financial assistance applications.

DATES: Effective date: December 20, 2001.

FOR FURTHER INFORMATION CONTACT:

LaTonya Poole, Office of Energy Efficiency and Renewable Energy, EE-3.2, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0121, (202) 586-3835.

- I. Introduction
- II. Applicability of Notice
- III. Distinction between Solicited and Unsolicited Proposals
- IV. Objective Merit Review Procedure
- V. Deviations
- VI. EERE Selection Process

I. Introduction

The Department of Energy (DOE) today gives notice of the procedure for the objective merit review of discretionary financial assistance in the Office of Energy Efficiency and Renewable Energy (EERE). Financial assistance is provided, in the form of a grant or cooperative agreement, when the principal purpose of the transaction is the transfer of money or property to accomplish a public purpose of support or stimulation as authorized by Federal

statute. Discretionary financial assistance is financial assistance provided under a Federal statute which authorizes DOE to select the recipient and the project to be supported and to determine the amount to be awarded. This differs from a procurement, which refers to instruments used when the principal purpose of the transaction is the acquisition of supplies or services for the direct benefit of the Government. The procedure implements the objective merit review provisions of the DOE Financial Assistance Rules in (10 Code of Federal Regulations (CFR) 600.13).

II. Applicability of Notice

The procedure covers the evaluation of all discretionary financial assistance applications within the programs of the DOE Office of Energy Efficiency and Renewable Energy and applies to both solicited and unsolicited applications.

III. Distinction Between Solicited and Unsolicited Proposals

Solicited proposals are direct responses by interested organizations or individuals to published requests issued by DOE for the submission of applications for discretionary financial assistance awards. Solicited proposals are awarded on a competitive basis using the criteria set forth in 10 CFR 600.8. When a proposal is submitted solely on the proposer's initiative and the idea, method or approach which would not be eligible for assistance under a recent, current, or planned solicitation, and if, as determined by DOE, a competitive solicitation would not be appropriate, the proposal is considered an unsolicited proposal. Unsolicited proposals are awarded on a noncompetitive basis using the criteria set forth in 10 CFR 600.6 (c). The two types of proposals are treated differently, as described in paragraph IV. (c), below.

IV. Objective Merit Review Procedure

(a) *Definition and Purpose.* Merit review is the process of evaluating applications for discretionary financial assistance using established criteria. The review is thorough, consistent and independent and is completed by individuals knowledgeable in the field of endeavor for which support is requested. The purpose of the review is to provide advice on the technical and cost-related merits of applications to the Selection Official with decision-making authority over the award of discretionary financial assistance.

(b) *Basic Review Standards.* (1) *Initial Review.* All discretionary financial assistance applications received by EERE will be assigned to the respective

EERE program official who will initially review the document(s) for conformance with the technical and administrative requirements stated in the program rule, notice or solicitation. Applicants not meeting the technical and administrative requirements of the program rule, notice or solicitation will be considered non-responsive. Non-responsive applications will not receive further consideration for financial assistance. Non-responsive applicants will be notified in writing. (2) *Evaluation.* Solicited applications which pass the initial review will be evaluated in accordance with stated evaluation criteria set forth in the program rule, notice or solicitation. Those applications not meeting the evaluation criteria of the program rule, notice or solicitation may be returned to the sender to be corrected, modified or supplemented by the sender. Those applications judged to be so inadequate that an evaluation is not warranted will not receive further consideration for financial assistance and may be returned to the sender. Unsolicited proposals will be reviewed to determine whether program policy factors would encourage further review of the proposal.

(c) *Criteria for Merit Review.*

Applications which pass the initial review and meet the evaluation criteria set forth in the program rule, notice or solicitation are subjected to an objective merit review for discretionary financial assistance. The criteria used for the evaluation of solicited applications must be clearly stated in the solicitation along with the relative importance given to each criterion. The criteria, and other mandatory information specified in 10 CFR 600.8, must be in the solicitation. If an unsolicited proposal is initially favorably evaluated against program policy factors, it should be considered for an objective merit review for discretionary financial assistance. Eligibility requirements for the award of unsolicited proposals are set forth in 10 CFR 600.6 (c).

(d) *The Merit Review Committee.* (1) The Assistant Secretary for Energy Efficiency and Renewable Energy (ASEE) has the ultimate responsibility for appointments to a merit review committee (the Committee). The ASEE may delegate the appointment authority and decision-making authority (Selection Official function) to Deputy Assistant Secretaries (DAS), Office Directors and Regional Support Office Directors.

(2) The Committee, whether a standing committee or other review committee, will consist of three or more professionally and technically qualified
