(Catalog of Federal Domestic Assistance No. 83.100, "Flood Insurance") Dated: December 11, 2001.

Robert F. Shea, Acting Administrator, Federal Insurance and Mitigation Administration. [FR Doc. 01–31372 Filed 12–19–01; 8:45 am] BILLING CODE 6718-04–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-D-7516]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, FEMA. **ACTION:** Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table. FOR FURTHER INFORMATION CONTACT: Matthew B. Miller, P.E., Chief, Hazards Study Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–3461, or (email) matt.miller@fema.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Acting Administrator, Federal Insurance and

Mitigation Administration, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform. This proposed rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, flood insurance, reporting and recordkeeping requirements.

Accordingly, 44 CFR Part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for Part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§67.4 [Amended]

2. The tables published under the authority of 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
Florida	Franklin County (Unincorporated Areas).	Apalachicola Bay	Approximately 2.6 miles southeast of West Pass.	*7	*8
			Approximately 4.1 miles southwest of Government Cut in St. George Island.	*7	*10
		St. George Sound	Just east of St. George Island Bridge	*9	*10
			Shoreline of St. George Island at (and in- clude) Marsh Island.	*15	*12
		Gulf of Mexico	Approximately 2.6 miles southeast of West Pass.	*7	*8

BILLING CODE 6718-04-P

DEPARTMENT OF DEFENSE

48 CFR Part 235

[DFARS Case 2001–D002]

Defense Federal Acquisition Regulation Supplement; Research and Development Streamlined Contracting Procedures; Correction

AGENCY: Department of Defense (DoD).

ACTION: Correction.

SUMMARY: DoD is issuing a correction to the preamble to the proposed rule published at 66 FR 63348–63349, December 6, 2001, pertaining to streamlined research and development contracting.

FOR FURTHER INFORMATION CONTACT: Ms. Angelena Moy, Defense Acquisition Regulations Council, OUSD (AT&L)DP(DAR), IMD 3C132, 3062 Defense Pentagon, Washington, DC 20301–3062. Telephone (703) 602–1302; facsimile (703) 602–0350.

Correction

In the issue of Thursday, December 6, 2001, on page 63349, in the first column, the second sentence of the **Background** section is corrected to read as follows: "The standard format is available on the research and development streamlined solicitation (RDSS) website at *http://www.rdss.osd.mil.*"

Michele P. Peterson,

Executive Editor, Defense Acquisition Regulations Council. [FR Doc. 01–31354 Filed 12–19–01; 8:45 am] BILLING CODE 5000–04–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 223 and 224

[Docket No. 011212298-1298-01; I.D. No. 113001A;]

Listing Endangered and Threatened Wildlife and Plants and Designating Critical Habitat; 90-Day Finding for a Petition to List Atlantic White marlin (*Tetrapturus albidus*)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of petition finding; request for information and comments.

SUMMARY: NMFS announces the 90-day finding for a petition to list Atlantic white marlin (*Tetrapturus albidus*) as threatened or endangered throughout its known range and to designate critical habitat under the Endangered Species Act (ESA). NMFS finds that the petition presents substantial scientific information indicating that the petitioned action may be warranted. NMFS will conduct a status review of Atlantic white marlin to determine if the petitioned action is warranted. To ensure that the review is comprehensive, NMFS is soliciting information and comments pertaining to this species and potential critical habitat from any interested party. NMFS also

seeks suggestions from the public for peer reviewers to take part in the peer review process for the Atlantic white marlin status review.

DATES: Comments and information related to this petition finding must be received by February 19, 2002.

ADDRESSES: Requests for copies of the petition, and information and comments on this finding should be submitted to Georgia Cranmore, Assistant Regional Administrator for Protected Resources, National Marine Fisheries Service, Southeast Regional Office, 9721 Executive Center Drive North, St. Peterburg, FL 33702–2432. The petition, finding and supporting data are available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Jennifer Lee, NMFS Southeast Region, (727) 570–5312; or David O'Brien, NMFS, Office of Protected Resources, (301) 713–1401.

SUPPLEMENTARY INFORMATION:

Background

Section 4 (b)(3)(A) of the ESA (16) U.S.C. 1531 et seq.) requires that NMFS make a finding as to whether a petition to list, delist, or reclassify a species presents substantial scientific or commercial information indicating that the petitioned action may be warranted. NMFS' ESA implementing regulations (50 CFR 424.14) define "substantial information" as the amount of information that would lead a reasonable person to believe that the measure proposed in the petition may be warranted. In determining whether substantial information exists for a petition to list a species, NMFS takes into account several factors, including information submitted with, and referenced in, the petition and all other information readily available in NMFS' files. To the maximum extent
