Elizabeth Webbing, Inc. Central Falls, RI; Notice of Revised Determination on Reconsideration

On November 13, 2001, the Department issued an Affirmative Determination Regarding Application on Reconsideration applicable to workers and former workers of the subject firm. The notice was published in the **Federal Register** on December 5, 2001 (66 FR 63263).

On June 25, 2001 the Department initially denied TAA to workers of Elizabeth Webbing, Inc., Central Falls, Rhode Island producing nylon and polyester webbing because the "contributed importantly" group eligibility requirement of section 222 of the Trade Act of 1974, as amended, was not met.

On reconsideration, the department surveyed additional customers of the subject plant regarding their purchases of nylon and polyester webbing during the relevant period. The survey revealed that customers increased their imports of nylon and polyester webbing, while decreasing their purchases from the subject plant during the relevant period.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with nylon and polyester webbing, contributed importantly to the declines in sales or production and to the total or partial separation of workers of Elizabeth Webbing, Inc., Central Falls, Rhode Island. In accordance with the provisions of the Act, I make the following certification:

All workers of Elizabeth Webbing, Inc., Central Falls, Rhode Island who became totally or partially separated from employment on or after April 9, 2000 through two years of this certification, are eligible to

apply for adjustment assistance under section 223 of the Trade Act of 1974.

Signed in Washington, DC this 12th day of December 2001.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

Glenshaw Glass Company, Inc. Glenshaw, PA; Notice of Affirmative Determination Regarding Application for Reconsideration

By letter of June 11, 2001, the workers requested administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, petition TA-W-38,921. The denial notice was signed on May 15, 2001 and published in the **Federal Register** on May 25, 2001 (66 FR 28928).

The Department has reviewed the request for reconsideration and has determined that the Department will examine the petitioner's allegation claiming that the parent customer is importing glass containers similar to what the subject plant produced and selling the glass containers to the subject firm's customer base.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is therefore, granted.

Steag Hamatech, Inc., Saco, ME; Notice of Revised Determination on Reconsideration

By letter of July 9, 2001, the company, requested administrative reconsideration regarding the Department's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to the workers of the subject firm.

The initial investigation resulted in a negative determination issued on May 21, 2001, based on the finding that the "contributed importantly;" group eligibility requirement of section 222(3) of the Trade Act of 1974, as amended, was not met. The investigation revealed that imports did not contribute importantly to worker separations at the firm. A major portion of production was for the export market. The reason for the separations at the subject firm was the transfer of production abroad. The denial notice was published in the **Federal Register** on June 8, 2001 (66 FR 30947).

To support the request for reconsideration, the company provided additional information clarifying how the company was impacted by imported products like and directly competitive with what was produced at the subject firm.

The company indicated that they were the only domestic manufacturer of this type of equipment (referred to as replication equipment) and that the machinery is a type of capital equipment, which normally is not purchased on an annual basis. The domestic market accounted for a
